H. Goldstein B.Sc., B.S.W., RSW, 2012-01-09 Searching for a Retirement or Long term care home can be a daunting task Often one is plagued with questions or has to make a decision quickly and doesn't know where to begin This is a GUIDE that every senior or their family going through this process MUST have Written by an experienced hospital social worker it truly makes the process much easier It explains the different options available gives you 160 questions to ask when you tour homes has contact information on resources and services for seniors and provides detailed information on hundreds of retirement homes and long term care residences This is THE most COMPREHENSIVE source of information you will find on retirement living in Canada A must have for anyone searching for retirement living for themselves or a loved one Design Guidelines in American Cities John Punter, 1999-01-01 This book is a study of design initiatives and policies in five US West Coast cities Seattle including Bellevue Portland San Francisco Irvine and San Diego all of which have had particularly interesting urban design experience of relevance to practice in Britain and other countries Although these cities are not a representative sample of all American design practice they provide a rich vein of ideas about recent policy development and current initiatives which will stimulate thought about the formulation of effective design controls The presentation of substantial extracts from key documents that underpin design controls in the five cities will be of interest inspiration and practical use to academics and practitioners who want to know more about American practice and who want to contribute to improvements in the standards and quality of urban design policies and design control The opening chapter provides a national context and a comparative framework for the study with a focus on international perspectives American planning systems and the development of criteria for comparison and evaluation The five subsequent chapters take each city in turn briefly reviewing the salient characteristics of each one before presenting an account of how planning and design policy have evolved in the last twenty five years key features of the contemporary

systems of design control are highlighted and a summary evaluation is made. The focus in the case studies is on how policy and guidance have been formulated, structured and presented in the various documents that make up the policy framework, how the process of control operates and how both respond to the criticisms commonly made of design and control. This final chapter draws general conclusions about the experience of the studied cities of wider relevance to American design review practice but which are of interest to those engaged in design review and policy formulation everywhere.

The Vancouver Achievement John Punter, 2010-10-01 This book examines the development of Vancouver's unique approach to zoning planning and urban design from its inception in the early 1970s to its maturity in the management of urban change at the beginning of the twenty-first century. By the late 1990s Vancouver had established a reputation in North America for its planning achievement, especially for its creation of a participative, responsive and design-led approach to urban regeneration and redevelopment. This system has other important features: an innovative approach to megaproject planning; a system of cost and amenity levies on major schemes; a participative CityPlan process to underpin active neighbourhood planning; and a sophisticated panoply of design guidelines. These systems, processes and their achievements place Vancouver at the forefront of international planning practice. The Vancouver Achievement explains the evolution and evaluates the outcomes of Vancouver's unique system of discretionary zoning. The introductory chapters set the context for the study; they cover the invention and refinement of this system in the reform movement, its development of policies, guidelines and control processes, and its translation into official development plans and neighbourhood design in the 1970s. Subsequent chapters focus upon the downtown waterfront megaprojects, single-family neighbourhoods, the city-wide strategic planning programme CityPlan, pressures for reform of control processes and current downtown and inner-city developments, especially issues of affordable housing, social exclusion and multiple deprivation. The concluding chapter summarizes. The Vancouver Achievement explains the keys to its success and evaluates its design success against internationally accepted criteria. Heavily illustrated with over 160 photos and figures, this book, the first comprehensive account of contemporary planning and urban design practice in any Canadian city, will appeal to academic and professional audiences as well as the general public.

Twisted Tour Guide: Vancouver British Columbia Marques Vickers, 2022-08-07 Avoid The Tourist Herds. What could be more uninspiring than seeing the identical attractions that everyone else has for decades? This Twisted Tour Guide escorts you to the places locals don't want to talk about anymore, the same places people once couldn't stop talking about. Long after the screaming headlines and sensationalism has subsided, these bizarre, infamous and obscure historical sites remain hidden, awaiting rediscovery. Each visitation site in this guide is accompanied by a story. Many of the narratives defy believability yet they are true. The photography from each profile showcases the precise location where each event occurred. The scenes can seem ordinary, weird and/or sometimes very revealing towards clarifying the background behind events. If you're seeking an alternative to conventional tourism, this Twisted Tour Guide is ideal. Each directory accommodates the restless traveler and even resident.
