

Volvo A25D and A30D - Completes the New Generation Articulated Haulers

Volvo A25D and A30D are flexible high production machines for all types of work in the 25-30 ton class. They are the smallest models in the Volvo Articulated Hauler range. The machines are built with Volvo-made components and feature very high productivity, comfort and safety.

The well-established 25-ton hauler dominates the market, mainly due to the flexibility, all-round performance and ease of moving between sites. The A30D in the expanding 30-ton class features even higher productivity, without any noticeable effect on flexibility and all-round performance. The combination of these features is vital for future construction projects.

The new 25 and 30-ton models from Volvo are once again way ahead of the competition when it comes to production, operating costs and safety.
