

THE WEST AFRICAN EXAMINATIONS COUNCIL
WASSCE FOR SCHOOL CANDIDATES, 2023
FINAL MARKING SCHEME
GENERAL MATHEMATICS / MATHEMATICS (CORE) 2

GENERAL INSTRUCTIONS

1. Marks are subdivided into method (M) marks, accuracy (A) and independent accuracy marks not preceded by M mark (B).
2. The M marks should be given for a particular stage if the method is correct; that is, it would, if correctly carried out without numerical error, yield the right answer. M marks are not subdivided and unless the M Marks for a stage have been awarded, no A marks can be gained for that stage.
3. Deduct 2 for a misreading of the data. Deduct 1 for an answer not given to the degree of accuracy asked for, but this should not be more than once in a question. Deduct 1 for premature approximation which does not considerably simplify the subsequent work.
Deduction could only be made from A or B marks and not from M marks.
4. Give 0 for results obtained for work that is indecipherable or wholly suppressed (W.S.O). Deduct 1 mark for omission of an essential working (oew-1).
5. Do not mark beyond the first appearance of a correct answer, i.e. ignore further working after a correct answer.
- 6. For geometric proofs, except when otherwise stated above, deduct 1 for an essential reason omitted or for a wrong reason given but not more than once in the question.
7. Deduct 1 mark for omission of units or for wrong units but this should not be more than once in one question.
8. If a question is attempted more than once, mark all and record the marks for that which has gained the lowest marks.
9. If more questions are attempted than the rubric allows, delete the marks for those extra questions which have gained the lowest marks.
This rule implies that for candidates answering more than 5 questions in Part II, consider only the best 5 questions and ignore the remaining questions in that part by writing 'MQA' through. ('MQA' denotes 'More Question Answered' than the rubric allows).
10. Candidates who failed to draw diagrams for questions that required diagrams, must be scored zero, whether the solution is correct or not.
11. Candidates who used non mathematical symbols such as *, /, ^ must be scored zero in such questions unless required by the question.
12. Unless otherwise stated, equivalent methods not specified in the Marking Scheme should be accepted and given appropriate marks.
13. The total marks according to the Marking Scheme are 100.
14. The final total (and not the question total) should be rounded upwards to the nearest whole number.
