Study

Guide 300-835 CLAUTO Automating and Programming Cisco Collaboration Solutions Exam Anand Vemula, This comprehensive study guide serves as an in-depth resource for candidates preparing for the Cisco 300-835 CLAUTO exam, a certification focused on automation and programming of Cisco Collaboration solutions. It covers the full exam blueprint spanning critical topics like API protocols, Unified Communications Manager (CUCM), Unity Connection, IM, and Presence, Cisco Webex scripting tools, and real-world automation use cases. The material begins with foundational concepts explaining RESTful APIs, JSON/XML data formats, HTTP methods, and common authentication models such as OAuth. It transitions into practical applications such as automating CUCM via AXL, managing directory services with UDS, and handling phone user configurations through APIs. Troubleshooting integration and connectivity issues is given detailed treatment to prepare candidates for real-world challenges. Unity Connection automation is dissected through REST APIs with guidance on user and mailbox management and authentication models. Similarly, Cisco IM and Presence content focuses on automating presence features using XMPP and integrating them into collaboration workflows. The Webex section details API-based management of meetings, messaging, and devices, including bot integration and secure API development. In the final segments, tools like Python, Postman, Git, and CI/CD pipelines are explored to help candidates build scalable, testable automation workflows. Troubleshooting strategies, log analysis, and error handling practices round out the technical preparation. The guide is

complemented by 150 multiple choice questions that reinforce key concepts and prepare users for the actual exam This study material not only supports exam readiness but also builds real world skills for collaboration automation in modern enterprise environments
