Classen,2019-07-18 Prostitution is known as the oldest profession in the history of humanity While historians have already given due consideration to the profession s social and cultural meanings across time periods little has been written about literary representations of prostitution Prostitution in Medieval and Early Modern Literature analyses the work of writers from an array of social positions including courtly poets and even religious writers dealing with the topic during the medieval and early modern periods Its study shows that prostitutes and brothel owners were present on the literary stage far more often than we might have assumed Utilizing an interdisciplinary approach and incorporating relevant sources from across the entire European continent dating from the early Middle Ages to the sixteenth century it examines the phenomenon of prostitution in a variety of contexts and highlights the extent to which the institution mattered for both the higher and the lower classes

*Invisible Enlighteners* Federica Francesconi,2021-06-04 Federica Francesconi writes the history of the Jewish merchants who lived and prospered in the northern Italian city of Modena capital city of the Este Duchy during the seventeenth and eighteenth centuries Her protagonists are men and women who stood out within their communities but who despite their cultural and economic prominence were ghettoized after 1638 Their sociocultural transformation and eventual legal and political integration evolved through a complex dialogue between their Italian and Jewish identities and without the traumatic ruptures or dramatic divides that led to the assimilation and conversion of many Jews elsewhere in Europe In Modena male and female Jewish identities were contoured by both cultural developments internal to the community and engagement with the broader society The study of Lurianic and Cordoverian Kabbalah liturgical and nondevotional Hebrew poetry and Sabbateanism existed alongside interactions with Jesuits converts and inquisitors If Modenese Jewish merchants were absent from the public discourse of the Estes their businesses lives were nevertheless located at the very geographical and economic center of the city They lived in an environment that gave rise to unique forms of Renaissance culture early modern female agency and Enlightenment practice New Jewish ways of performing gender emerged in the seventeenth century giving rise to what could be called an entrepreneurial female community devoted to assisting employing and socializing in the ghetto Indeed the ghetto leadership prepared both Jewish men and women for the political and legal emancipation they would eventually obtain under Napoleon It was the cultured Modenese merchants who combined active participation in the political struggle for Italian Jewish emancipation with the creation of a special form of the Enlightenment embedded in scholarly and French oriented lay culture that emerged within the European context

William W. Sanger, 1859      **The Household and the Making of History** Mary S. Hartman, 2004-04-12 This book argues that a unique late marriage pattern discovered in the 1960s but originating in the Middle Ages explains the continuing puzzle of why western Europe was the site of changes that from about 1500 gave rise to the modern world. Contrary to views that credit upheavals from the late eighteenth century were responsible for ushering in the contemporary global era, it contends that the roots of modern developments themselves are located in an event more than a millennium earlier when the peasants in northwestern Europe began to marry their daughters almost as late as their sons. The appearance of this late marriage system with its unstable nuclear household form will also be shown to have exposed for the first time the common ingredients whose presence has perpetuated beliefs in the importance of gender difference and of a sexual hierarchy favoring males.

**Reframing Prostitution** N. Persak, G. Vermeulen, 2014-07-07 Prostitution has always fascinated the public and bewildered policy makers. *Reframing Prostitution* explores several aspects of this multidimensional phenomenon, examining different ways in which prostitution is and was being practised in different places and different times, best practices in the regulation of prostitution, as well as wider social and psychological issues such as the construction of prostitution as incivility or of prostitutes as a socially problematic group or as victimised individuals. The book also addresses normative questions with respect to policy making, unmasking the purposes behind certain societal reactions towards prostitution, as well as proposing innovative solutions that could reconcile societal fears of exploitation and abuse while meeting the rights and needs of individuals voluntarily involved in prostitution. With contributions across social science disciplines, this international collection presents a valuable discussion on the importance of empirical studies in various segments of prostitution, highlights social contexts around it, and challenges regulatory responses that frame our thinking about prostitution, promoting fresh debate about
