Provincial Bursary Of Kwazulu Natal 2014:

Change Management in TVET Colleges Kraak, Andre, Paterson, Andrew, 2016-07-25 The Technical and Vocational Education and Training TVET college environment is marked by increasingly stark juxtapositions between what needs to be achieved in the post school education sector and the increasing difficulty of current conditions The triple challenge of poverty inequality and unemployment weighs heavily on the social political and economic fabric of the country and expectations are high that the TVET colleges can make a pivotal contribution to counter these challenges Despite laudable increases in TVET enrolment the education system needs to work harder to accommodate the weight of demand for post school further education and training FET band qualifications from young people not in education employment or training At the same time it is vital to secure adequate quality in TVET programmes which depend so much on the competence and commitment of college lecturers This collection offers a set of research papers that provide new analytic and empirical material on The political economy of TVET types in different countries which by comparison illuminate the South African case A periodisation of government interventions in the TVET sector over the last three decades The unsettled state and status of TVET lecturers in relation to their job requirements and conditions of service The halting evolution of collegial relationships between college lecturers towards higher collegiality Employer expectations of college graduates and how colleges are responding and An analysis of the outcomes of a college improvement intervention in Limpopo and the Eastern Cape This book will offer valuable information and insights for decision makers as well as analysts of institutional change concerning links between education and economic growth with particular regard to TVET graduates employment rates *Annual Report* KwaZulu-Natal (South Africa). Office of the Premier, 2014 **Extended Curriculum Programmes** Tennyson Mgutshini, 2022-04-30 The introduction of ECPs in South African Universities is seen by many as South Africa's key strategy for addressing the problem of poor patterns of student success and has its basis on the uncontested acceptance that an extended study duration may be necessary to bring some categories of learners to a level of parity with the readiness expectations of their course of study Even so this transformative strategic imperative has been plagued by a range of challenges that include poor systems readiness poor selection mechanisms in the identification of ECP students poor numeracy and literacy amongst students and indifferent teacher involvement in ECPs This volume offers a rare insight into many of the above recognised challenges and in so doing provides critical matter for thought for educators within the higher education sector *Scholarship of education and human rights in diversity* Erika M. Serfontein, Charl C. Wolhuter, Shantha Naidoo, 2023-03-01 The objective of this book is to highlight the need and value of imbuing the dynamic intersections between education human rights and diversity with perspectives from the Global South The chapters approach key intellectual conundrums of the day from a Global South perspective to reflect a credible scholarly footprint in Africa and in the SADC region This is deemed timely considering that the field is deeply embedded in western Eurocentric and overall

Global North dominance This book will provide a Southern perspective on education and human rights in diversity by unpacking each of the following key areas in the intersection between education human rights and diversity from a Southern perspective comparative international perspectives citizenship education human rights literacies human rights education pedagogy learner discipline in schools aggression and bullying in schools addressing human trafficking by means of human rights education social justice and the decolonisation of human rights and human rights education **Transforming Higher Education Scholarship: After Covid-19 and in the Context of the 4th Industrial Revolution** Grace Khunou, In this edited book we are compelled to think about the convergences between the technological advances made possible by lockdowns brought on by the Covid 19 Pandemic and increased 4IR use in the South African context The insights presented in this edited volume make a case that transformation of higher education scholarship cannot happen without making space for historically excluded knowers thinking differently about historically marginalized knowledges and by constantly grappling with new developments and how they facilitate or encumber the transformation project Consequently Transforming Higher Education Scholarship After Covid 19 and in the Context of the 4th Industrial Revolution does a good job of illustrating how shifts towards the advancement of 4IR in the South African Higher Education sector impacted the transformation trajectory In their efforts to reimagine universities in Africa into African universities the authors in this edited volume grapple with how race and gender intersect in making the experiences of Black women in the South African academy untenable The chapters also contend for the significance of pluriversal knowledges by making a case for the place of Indigenous Knowledges Systems in building African universities As we grapple with the changes the 4IR has on the world and the teaching and learning landscape some of the chapters in this volume make a compelling argument for thinking both from a critical perspective about what the challenges the developments coming out of these technologies mean for South Africa and the continent as well as what possibilities for positive impact these tools bring Transforming Higher Education Scholarship After Covid 19 and in the Context of the 4th Industrial Revolution is timely and makes an important contribution to higher education transformation discourses **Disaster Management in Sub-Saharan Africa** Roland Azibo Balgah, Jude Ndzifon Kimengsi, 2022-04-21 A combined analysis of all the chapters provides an interesting summary and information for creating disaster management policies for improved results in SSA With an extensive glossary of terms and index the book lends itself to specialized academics and students but also to disaster management policy makers and practitioners **Biotraffic** Christopher Morris, 2024-10-15 Biotraffic explores the complex world of biological resource trade It takes readers inside the contemporary Ciskei region of South Africa a once notorious apartheid homeland turned extractive hub for wild medicinal plants Drawing from in depth ethnographic and archival research Christopher Morris examines the region's trade in *Pelargonium sidoides* a plant once contested as a tuberculosis treatment in early twentieth century Europe and now an internationally marketed remedy for the common cold The story of this trade links past and present encapsulating a larger

tale about colonial legacies and their intersection with global environmental governance ambitions It also teems with a diverse cast of actors from plant harvesters and pharmaceutical companies to activist NGOs and the chiefs who have become business partners with multinational drug firms The book s analysis extends beyond considering merely the extraction and commercialization of plant resources and offers a critical examination of how demand for therapeutics intertwines with broader struggles over land and political power in South Africa Biotraffic illuminates how a distance defying trade is reshaping the sociopolitical landscape of a region a region grappling with apartheid s afterlives and the challenges of environmental and economic justice Love, Sex and Teenage Sexual Cultures in South Africa Deevia Bhana, 2017-10-25

Love Sex and Teenage Sexual Cultures in South Africa interrupts the relative silence around teenage constructions of love in South Africa Against the backdrop of gender inequalities HIV and violence the book situates teenage constructions of love and romance within the wider social and cultural context underwritten by the histories of apartheid chronic unemployment poverty and the endless struggle to survive By drawing on focus group discussions with African teenage men and women the book addresses teenage Africans as active agents providing a more nuanced picture of their desires and their dilemmas through which sexuality and love are experienced The chapters in the book conceptualise desiring love material love pure love forced love and fearing love It argues that love is intrinsically linked to cultural practices and material realities which mold particular formations of teenage masculinities and femininities This book will be of interest to academics undergraduates postgraduates and researchers in sociology HIV health and gender studies development and postcolonial studies and African studies **Land Issues for Urban Governance in Sub-Saharan Africa** Robert Home, 2020-11-11 Sub

Saharan Africa faces many development challenges such as its size and diversity rapid urban population growth history of colonial exploitation fragile states and conflicts over land and natural resources This collection contributed from different academic disciplines and professions seeks to support the UN Habitat New Urban Agenda passed at Habitat III in Quito Ecuador in 2016 It will attract readers from urban specialisms in law geography and other social sciences and from professionals and policy makers concerned with land use planning surveying and governance Among the topics addressed by the book are challenges to governance institutions how international development is delivered building land management capacity funding for urban infrastructure land based finance ineffective planning regulation and the role of alternatives to courts in resolving boundary and other land disputes Issues of rights and land titling are explored from perspectives of human rights law the right to development and women s rights of access to land and land tenure regularization Particular challenges of housing planning and informality are addressed through contributions on international real estate investment community participation in urban settlement upgrading housing delivery as a partly failing project to remedy apartheid s legacy and complex interactions between political power money and land Infrastructure challenges are approached in studies of food security and food systems urban resilience against natural and man made disasters and informal public transport

The Geography of South Africa Jasper Knight, Christian M. Rogerson, 2018-10-03 This edited collection examines contemporary directions in geographical research on South Africa. It encompasses a cross section of selected themes of critical importance not only to the discipline of Geography in South Africa but also of relevance to other areas of the Global South. All chapters are original contributions providing a state of the art research baseline on key themes in physical human and environmental geography and in understanding the changing geographical landscapes of modern South Africa. These contributions set the scene for an understanding of the relationships between modern South Africa and the wider contemporary world including issues of sustainable development and growth in the Global South.

Rural Education Across the World Simone White, Jayne Downey, 2021-03-22 This book brings together authors from United States, South Africa, United Kingdom, China, Canada, and Australia to provide insights and case studies from across a range of contexts to explore the interplay between the notions of rurality, innovation, and education. The book reveals a hopeful and resilient approach to innovative rural education and scholarship collectively and provides important evidence to speak against an often deficit view of rural education. Three patterns are revealed: namely, the importance of place, attentive strategies, the importance of joined up alliances to maximise resources and networks, and finally, the need to utilize alternative methodologies and frameworks that have a starting point of difference rather than deficit for any rural initiative or approach. By drawing from international examples and responding in innovative ways to rural education challenges, this book provides an opportunity to share international insights into innovations, interventions, and partnerships that promote and support rural education in its broadest sense.

Contextualising Rural Education in South African Schools, 2023-04-03 South Africa's democratic government inherited a divided and unequal system of education. Under apartheid, South Africa had nineteen different educational departments separated by race, language, geography, and ideology. This education system prepared learners in different ways for the positions they were expected to occupy in social, economic, and political life under apartheid and was funded and resourced in ways that favoured white people and disadvantaged black people who remain in the working class. The newly elected democratic government in 1994 laid a foundation for a single national education system. Twenty-five years after the dawn of democracy, education is still in a parlous state in many communities in South Africa, but it is in the rural areas, mainly in the former homelands, that learners are most disadvantaged. Khaki-clad Springboks Gideon Nieman, 2017-08-17 Rugby was played constantly during World War II by service teams Whenever soldiers met or gathered sport and games developed Rugby in the armed forces was often an exuberant reaction from the stern reality of war It was played with knee pads on the dusty gritty sand of the desert and on grass beside the Nile river This is the story of rugby matches played by the 6th South African Armoured Division in Egypt Italy and their tour of Europe

Biomedical Hegemony and Democracy in South Africa Ngambouk Vitalis Pemunta, Tabi Chama-James Tabenyang, 2020-12-29 In Biomedical Hegemony and Democracy in South Africa Ngambouk Vitalis Pemunta and Tabi Chama James Tabenyang unpack the contentious South African government's post apartheid policy framework of the return to tradition policy The conjuncture between deep sociopolitical crises witchcraft the ravaging HIV AIDS pandemic and the government's initial reluctance to adopt antiretroviral therapy turned away desperate HIV AIDS patients to traditional healers Drawing on historical sources policy documents and ethnographic interviews Pemunta and Tabenyang convincingly demonstrate that despite biomedical hegemony patients and members of their therapy seeking group often shuttle between modern and traditional medicine thereby making both systems of healthcare complementary rather than alternatives They draw the attention of policy makers to the need to be aware of subaltern health narratives in designing health policy

Proceedings of the 25th European Conference on Knowledge Management Dr. Nora Obermayer, Dr Andrea Bencsik, *Social work in the 21st century* (Prof.) Mogomme A.

Masoga, Allucia L. Shokane, Annaline Keet, Varoshini Nadesan, 2024-12-30 This scholarly book *Social work in the 21st century Scholarship and praxis reimagined towards vulnerability* is the third volume in the Knowledge Pathing Multi Inter and Trans Disciplining in Social Sciences book series. Chapters were invited from contributing authors who are involved in social work practice and education and who are dealing with the issues of poverty, inequality and vulnerability in these fields. The focus of the book emanates from the main conference theme and sub themes of the ASASWEI Association of South African Social Work Education Institutions conference held in 2021. The theme of the conference: Pandemics, poverty, inequality and disability. *Social work in the 21st century* provided an opportunity for deep deliberation, knowledge exchange and skills development on how vulnerable communities already on the economic margins of society due to poverty and inequality are further marginalised during significant societal disruptions such as the coronavirus 2019 COVID 19 pandemic. It is these deliberations which culminated in this book. Drawing on the papers presented, the chapters promote knowledge and skills around vulnerabilities in our social context and how the social work profession is challenged to interrogate its role in addressing the persistent challenges of poverty and inequality that keep people on the peripheries of human development. The target audience for this book is primarily academics engaged in the field of social work and related fields. **Annual Report** South Africa. Department of Basic Education, 2016. *The Stolen Bible* Gerald O. West, 2016-08-09. The *Stolen Bible* tells the story of how Southern Africans have interacted with the Bible from its arrival in Dutch imperial ships in the mid 1600s through to contemporary post apartheid South Africa. The *Stolen Bible* emphasises African agency and distinguishes between African receptions of the Bible and African receptions of missionary colonial Christianity. Through a series of detailed historical, geographical and hermeneutical case studies, the book analyses Southern African receptions of the Bible, including the earliest African encounters with the Bible, the translation of the Bible into an African language, the appropriation of the Bible by African Independent Churches, the use of the Bible in the Black liberation struggle and the ways in which the Bible is embodied in the lives of ordinary Africans.
