

The requested PSA certificate is for Manual Verification

When you request a PSA certificate through PSAHelpline.ph, the system first searches for a digital copy within their database. However, in some cases, a digital record might not be available. This can occur for various reasons, such as older records or those from areas that have not yet fully transitioned to digital storage.

Manual Verification Process

If your requested PSA certificate falls under "manual verification", it signifies that PSA needs to locate the physical document within their archives. This process involves manual searching and retrieval of the original document. Once located, they replicate the document and prepare it for delivery.
