writing. Aimed at all teachers and trainees, it examines each element of the framework, the thinking environment, task design, training, creative thinking, the building blocks of the writing process, and developing children's creative self-efficacy. This range of ideas and approaches across all elements of the writing process that teachers can adapt, adopt, and apply to their own practice. This book also demonstrates that a lot of the key work in developing writing is done in between the building blocks of the writing process. This work in the gaps includes process feedback and feedback on the application of ideas. Ultimately, this book provides a resource for teachers to develop their writing pedagogy and children's outcomes whilst meeting National curriculum for England and Wales requirements and demands of standardised testing.
