Scripture leads to increased competence in the ancient art of personally ministering God's Word to others Part of the Biblical Counseling Coalition series Scripture and Counseling brings you the wisdom of twenty ministry leaders who write so you can have confidence that God's Word is sufficient necessary and relevant to equip God's people to address the complex issues of life in a broken world It blends theological wisdom with practical expertise and is accessible to pastors church leaders counseling practitioners and students equipping them to minister the truth and power of God's word in the context of biblical counseling soul care spiritual direction pastoral care and small group facilitation

The Mystery of Market Movements

Niklas Hageback, 2014-03-25 A quantifiable framework for unlocking the unconscious forces that shape markets There has long been a notion that subliminal forces play a great part in causing the seemingly irrational financial bubbles which conventional economic theory again and again fails to explain However these forces sometimes labeled animal spirits or irrational exuberance have remained elusive until now The Mystery of Market Movements provides you with a methodology to timely predict and profit from changes in human investment behaviour based on the workings of the collective unconscious Niklas Hageback draws in on one of psychology's most influential ideas archetypes to explain how they form investor perceptions and can be predicted and turned into profit The Mystery of Market Movements provides A review of the collective unconscious and its archetypes based on Carl Jung's theories and empirical case studies that highlights and assesses the influences of the collective unconscious on financial bubbles and zeitgeists For the first time being able to objectively measure the impact of archetypal forces on human thoughts and behaviour with a view to provide early warning signals on major turns in the markets This is done through a step by step guide on how to develop a measurement methodology based on an analysis of the language of the unconscious figurative speech such as metaphors and symbolism drawn out and deciphered from Big Data sources allowing for quantification into time series The book is supplemented with an online resource that presents continuously updated bespoke archetypal indexes with predictive capabilities to major financial indexes Investors are often unaware of the real reasons behind their own financial decisions This book explains why psychological drivers in the collective unconscious dictates not only investment behaviour but also political cultural and social trends Understanding these forces allows you to stay ahead of the curve and profit from market tendencies that more traditional methods completely overlook
