Psychology Around Us 2nd Edition:

Psychology Around Us Ronald Comer, Elizabeth Gould, 2012-02-07 Comer and Gould's *Psychology Around Us* demonstrates the many often surprising always fascinating intersections of psychology with students' day to day lives. Every chapter includes sections on human development, brain function, individual differences, and abnormal psychology that occur in that area. These cut across sections highlight how the different fields of psychology are connected to each other and how they connect to everyday life. Every chapter begins with a vignette that shows the power of psychology in understanding a whole range of human behavior. This theme is reinforced throughout the chapter in boxed readings and margin notes that celebrate the extraordinary processes that make the everyday possible and make psychology both meaningful and relevant. The text presents psychology as a unified field, the understanding of which flows from connecting its multiple subfields and reinforces the fact that psychology is a science with all that this implies: research methodology, cutting edge studies, the application of critical thinking.

Psychology Around Us Nancy Ogden, Michael Boyes, Evelyn Field, Ronald Comer, Elizabeth Gould, 2021-06-28 *Psychology Around Us* Fourth Canadian Edition offers students a wealth of tools and content in a structured learning environment that is designed to draw students in and hold their interest in the subject. *Psychology Around Us* is available with WileyPLUS giving instructors the freedom and flexibility to tailor curated content and easily customize their course with their own material. The Development of Children and Adolescents Penny Hauser-Cram, J. Kevin Nugent, Kathleen Thies, John F. Travers, 2013-11-25 *The Development of Children and Adolescents* by Penny Hauser-Cram, J. Kevin Nugent, Kathleen Thies, and John F. Travers provides an integrated view of child development. Presenting the most pertinent research for each developmental stage and linking this to practical applications in the areas of Parenting Policy and Practice, this balanced approach emphasizes the relationship between research and theory and applications. The rich media program including WileyPLUS with Real Development promotes active learning and allows for increased understanding and comprehension of the course content. Real Development, authored by Nicole Barnes, Ph.D., Montclair State University and Christine Hatchard, Ph.D., Monmouth University, uses authentic video showcasing real families along with activities and assessments that put students in the place of a professional to gain an understanding of key concepts. Through the combination of text and media, students are engaged in meaningful learning that deepens and enriches their understanding of developmental concepts.
