Teachers and Scholars Robert Nisbet,2017-07-05 The University of California at Berkeley is today best known as a great research center and popularly remembered as a locus of campus unrest in the 1960s This memoir by the eminent sociologist and historian of ideas Robert Nisbet views Berkeley from a different perspective Teachers and Scholars is a fascinating

picture of Berkeley as it was a half a century ago in its move to become the most important center of learning west of the Mississippi Nisbet recounts his years there as student and teacher and offers vivid portraits of Berkeley's professors and personalities Between the Great Depression and entry into World War II Berkeley was a unique window on a Western world in turmoil All the ideologies of the time liberalism socialism populism and fascism impinged on the life of the campus In Nisbet's view the thirties was the last decade of the old Berkeley a school that conceived its primary mission as that of teaching Although research was expected of every faculty member its chief importance was widely held to be in its elevating effect on undergraduate instruction In the shift from teaching to research some have argued that Berkeley has lost community and consensus while others claim that the university has only enriched itself Nisbet finds much to respect and criticize in both views His vision permits him to compare and contrast the Berkeley experience with other schools such as Harvard Chicago and Stanford Rich in intellectual and social history Teachers and Scholars is vitally pertinent to the educational questions and controversies of our own time

Sister Style Nadia E. Brown, Danielle Casarez Lemi, 2021 They don't think I'm viable because I'm a Black woman with natural hair and no husband This comment was made by Stacey Abrams shortly before the 2018 Democratic primary after she became the first Black woman to win a majority party's nomination for governor Abrams' sentiment reflects the wider environment for Black women in politics in which racist and sexist cultural ideas have long led Black women to be demeaned and fetishized for their physical appearance In *Sister Style* Nadia E. Brown and Danielle Casarez Lemi argue that Black women's political experience and the way that voters evaluate them is shaped overtly by their skin tone and hair texture with hair being a particular point of scrutiny They ask what the politics of appearance for Black women mean for Black women politicians and Black voters and how expectations about self-presentation differ for Black women versus Black men White men and White women Black women running for office face pressure often from campaign consultants and even close colleagues to change their style in order to look more like White women However as this book shows Black women candidates and elected officials react differently to these pressures depending on factors like age and incumbency Moreover Brown and Lemi delve into the ways in which Black voters react to Black female candidates based on appearance They base their argument in part on focus groups with Black women candidates and elected officials and show that there are generational differences that determine what sorts of styles Black women choose to adopt and to what extent they change their physical appearance based on external expectations
