

Chapter 1: The Study of American Government

- What is Political Power?
 - Politics exist partially because people disagree on who should govern and how they should govern, or on power and purpose
 - Power is the ability of one person to coerce another person to do the first person's will
 - Post-1950s, the government paid increasing attention to "private" matters (ex. a factory closing, a university refusing admission, a profession refusing accreditation)
 - Authority is the right to use power, or rightful power
 - Formal authority is the authority vested in a government office
 - Legitimacy is authority conferred by a law or constitution
 - American politics is often about what is legitimate authority (ex. the Constitutional Convention, the Civil War, the New Deal)
 - But most Americans today agree that political power is not legitimate if it is not somehow democratic (Alexander Hamilton actually worried America would be too democratic)
- What is Democracy?
 - Democracy is the "rule of the many", as defined by Aristotle
 - Direct or participatory democracy is when all or most citizens participate directly in policy-making; only works with smaller populations
 - Representative democracy is when only elected representatives participate directly in policy-making; works with larger populations and prevents mob rule
- Is Representative Democracy Best?
 - A working representative democracy requires opportunity for real competition for leadership (i.e. people and parties can run for office, free communication, and meaningful choices for voters)
 - Some variables include the numbers of elective and appointive offices, the number of meaningful candidates or parties, and the source of funds for electoral campaigns
 - Some support the continuation of direct democracy through community control, citizen participation in law formation, and referendums (or policy choices on the ballot)
 - The Framers of the Constitution believed in representative democracy because it would mediate popular views, not follow them exactly, because they thought most laymen were not capable of making reasonable decisions on policy (because of lack of time, information, interest, expertise, or resistance to demagoguery), and because it would prevent governance from proceeding at too breakneck a rate;
- How is Political Power Distributed?
 - In representative democracy, very different leaders can come to power depending on the mood of the public
 - Sometimes, in majoritarian politics, leaders closely follow public demands because they are heavily constrained by what the majority wants; can occur when the issue is important enough to gain a lot of attention, clear enough to allow citizens to make informed opinions, and feasible enough to address that the citizens' wishes can be done
 - Other times, leaders act without knowing or caring about public opinion, and the small public voice that makes itself heard is often that of a minority
 - An elite is a group of people who have a disproportionate amount of a resource (ex.

even while condemning them politicians have not stopped using them In the media in the courtroom and in everyday confrontation ad hominem arguments are easy to put forward as accusations are difficult to refute and often have an extremely powerful effect on persuading an audience Walton gives a clear method for analyzing and evaluating cases of ad hominem arguments found in everyday argumentation His analysis classifies the ad hominem argument into five clearly defined subtypes abusive direct circumstantial bias poisoning the well and tu quoque you re just as bad arguments and gives methods for evaluating each type Each subtype is given a well defined form as a recognizable type of argument The numerous case studies show in concrete terms many practical aspects of how to use textual evidence to identify and analyze fallacies and to evaluate argumentation as fallacious or not in particular cases Survey and Study of Administrative Organization, Procedure, and Practice in the Federal Agencies by the Committee on Government Operations United States.
