SIR: I have the honor to present herewith the first annual report of the United States Geological Survey, covering the fiscal year ending June 30, 1880.

Congress having prescribed the mode of publishing the results of the survey, it is intended to confine these pages to a simple statement of the bureau organization, progress of field investigation, and results already attained.

The law creating the office of Director of the Geological Survey was enacted and approved March 3, 1879. On March 21, 1879, the President nominated me first Director of the Geological Survey, the Senate confirmed his action on April 3, 1879, and on May 24 I took the prescribed oath of office, and entered on my duties.

Congress expressed its determination to inaugurate the Geological Survey in a provision of law so brief, that I give it entire, in order to comprise in this report the history of the origin and organization of this bureau.

For the expenses of the Geological Survey, and the classification of the public lands, and examination of the geological structure, mineral resources, and products of the national domain, to be expended under the direction of the Secretary of the Interior, one hundred thousand dollars.
