## **Us Government Ftpmirror:**

**Fiscal Management** World Bank, 2005 Accountability of government to citizens is the foundation for good governance. Unfortunately, many developing countries suffer the results of dysfunctional governance systems that fail to provide even minimal levels of vital public services. The key message of the New Institutional Economics is that incentives matter. In the public sphere, the countries' accountability frameworks, rewards, sanctions, and measurement of performance shape public sector performance. This book applies this fundamental insight to fiscal budgetary analysis and public service delivery, giving the reader tools and around the globe examples of institutional arrangements that help citizens hold government accountable for their performance. *State Government News*, 1995
