Manorial Capitalism, Enslavement, and the Logic of Dividuation Raphael Sassower,2025-03-31 Manorial Capitalism Enslavement and the Logic of Dividuation proffers three perspectives on the plantation slave economy of the Antebellum South The first explores the paternal function as exemplified in the structural authority of the lord of the manor both symbolically and operationally This figure of masculine authority persisted from the Medieval period to orchestrate what is called here Manorial Capitalism The second examines the exploitation and alienation that epitomize the logic of capitalism from the plantation economy to the present And the third deploys retroactively the logic of dividuation to the plantation a logic that draws its inspiration from neoliberal financial capitalism as well as from anthropological accounts which distinguish the dividual from the Cartesian Kantian individual This book argues that reducing individuals to dividuated components continues to enable a dehumanizing capitalist mindset to fixate on abstracted labor power rather than seeing

laboring individuals *The American Presidents From Polk to Hayes* Robert A. Nowlan, Ph.D.,2016-01-31 American Presidents Polk to Hayes What They Did What They Said What Was Said About Them is the second book in a planned five volume series covering all the Presidents These 43 men so far have succeeded in some regards and failed in others as they strove to do the best they could in what is surely one of the most difficult jobs in the world Only they can truly appreciate what it takes to be the president Others can only speculate People feel strongly about U S Presidents Some they admire others they hate It is fair game to criticize a president s actions and policies However questioning their commitment to American ideals seems like hitting below the belt There are no willing villains Most people can find justification for their actions beliefs and prejudices Each president strove to do the best he could for the nation and its people This goal of the book is not to praise presidents nor is it to condemn them The subtitle of each of the five books in the series What They Did What They Said What Was Said About Them perfectly describes the approach adopted to tell their stories in a unique way meant to entertain as well as inform Readers are asked to make their own judgments of the presidencies based on more information than the semi myths they may recall History courses or what is preached in the many longstanding and despicable negative campaigning mudslinging and character assassination reports they hear from partisans One can find much to admire about each of the presidents and unfortunately much to deplore Soldiers are told that in giving salutes to officers is not honoring the individuals but rather their rank If there are presidents readers just feel they cannot salute hopefully they can salute the presidency *Man of Seven Shadows* Richard Theodor Kusiolek,2020-08-06 It is an ancient time on Earth The Korka Clan led by a giant man are generational members of the Stone Age tribe Tiger Claw As they begin a historical journey through seven portals of time the clan has no idea of the challenges that lie ahead As members of the Korka Clan obtain their warrior credentials through battles with the Mongols in 1237 their village is burned to the ground by the Mongol hordes Over the next seven centuries the Korka Clan must endure forced migration and slave labor while working communal agricultural lands After they eventually resist the clan becomes foundational pillars of kingship Through the brutality of their historical roots the family becomes immersed in rebellions against economic and religious exploitation while engaging in military espionage to gain economic and political security As their journey leads them onward the Korka Clan influence the outcome of battles that ultimately guide future generations into the country of Ukraine and Washington D C to neutralize the existing Deep State **Documentary Film Making on Tribal in India** Dr. Harendra Pratap Singh Chouhan,2022-10-26 **Fifth World Medicine** Dr. John C. Y. Sterling,2025-07-04 For hundreds of thousands of years the story of human success was the story of a unique and powerful package In what this groundbreaking book calls the era of the Bundled Ape our ancestors dominated the planet by combining analytical intelligence emotional connection and physical dexterity within a single vessel the individual human Our societies economies and even our myths were built on the assumption that the person with the idea is also the one who feels the passion directs the hands and experiences the consequences Now that bundle is coming apart In *The Great Unbundling* the author presents a stunning new thesis for understanding our turbulent times The true disruption of artificial intelligence is not that it's a new tool but that it is the engine of a historical process that is systematically isolating each of our core functions improving them beyond human capacity and rendering the original human package obsolete This unbundling is being driven at a breakneck pace by the relentless profit seeking engine of modern capitalism which sees in AI the ultimate instrument for maximizing efficiency The evidence is everywhere *The Unbundling of Labor*

Generative AI is poised to automate or degrade the work of 300 million full time employees striking at the heart of the knowledge economy from law and finance to journalism and medicine The Unbundling of Intelligence For the first time raw problem solving capability is being divorced from conscious understanding An AI can pass the medical licensing exams without knowing what it means to heal or ace the bar exam without a concept of justice forcing us to ask what expertise truly means The Unbundling of Connection In an age of profound loneliness AI is stepping in to meet our most fundamental needs With AI companions parasocial relationships and algorithmically curated communities emotional fulfillment is being unbundled from the messy unpredictable and deeply rewarding work of human to human connection What happens to a species whose core evolutionary advantage has been deconstructed and outsourced What is the economic value of a human being in a world where our bundled skills are no longer competitive This leads to the crisis of humanism itself and forces us to consider radical solutions like Universal Basic Income not as a political choice but as a potential civilizational necessity in the face of a useless class But this is not another prophecy of doom The unbundling is not an endpoint but a turning point The Great Unbundling is the first book to chart the powerful counter current that is rising in response The Great Re bundling This is the story of the conscious human effort to forge a new purpose From the new artisans who are building thriving businesses on the very integrated authentic human skills that AI cannot replicate to the political movements and policymakers fighting to subordinate this new technology to human values a new path is being forged The Great Unbundling is a profound deeply researched and ultimately hopeful guide to the most important transition of our lifetime It provides the essential framework for understanding the forces reshaping our world and offers a stirring vision for how we can actively create our future This provocative and insightful work argues that we are at a civilizational crossroads We can either passively accept our unbundling or begin the conscious creative and difficult work of forging a new human purpose Essential reading for aficionados of Yuval Noah Harari Nick Bostrom and Kai Fu Lee The Great Unbundling is sure to spark debate and will forever change how you think about the future of humanity *Field Hospitals* Elhanan Bar-On, Kobi Peleg, Yitshak Kreiss, 2020-01-09 Represents the vast experience of the world's leading experts in field hospital deployment in disasters and conflicts
