People of Faith John Arnold Schmalzbauer, 2003 Over the past two decades a host of critics have accused American journalism and higher education of being indifferent even openly hostile to religious concerns These professions more than any others are said to drive a wedge between facts and values faith and knowledge the sacred and the secular However a growing number of observers are calling attention to a religious resurgence journalists are covering religion more frequently and religious scholars in academia are increasingly visible John Schmalzbauer provides a compelling investigation of the role of Catholic and evangelical Protestant beliefs in the newsroom and the classroom His interviews with forty prominent journalists and academics reveal how some people of faith seek to preserve their religious identities in purportedly secular professions What impact he asks does their Christianity have on their jobs What is the place of personal religious conviction in professional life Individuals featured include the journalists Fred Barnes Cokie Roberts Peter Steinfelds Cal Thomas and Kenneth Woodward and the scholars John DiIulio Elizabeth Fox Genovese Andrew Greeley George Marsden and Mark Noll Some of the journalists and academics with whom Schmalzbauer spoke qualified displays of personal religious belief with reminders of their own professional credibility drawing a line between advocacy and objectivity Schmalzbauer highlights the persistent tensions between the worlds of public endeavor and private belief yet he maintains there is room for faith even in professional environments that have tended to prize empiricism and detachment over expressions of personal conviction

Schooling in the Light of Popular Culture Paul Farber, Eugene F. Provenzo Jr., Gunilla Holm, 1994-06-28 Annotation Explores an underexamined source of influence that affects the way schooling is experienced and understood in contemporary culture namely the flow of symbolic forms comprising mainstream popular culture The volume centers on the portrayal of aspects of schooling its characteristics participants glories and problems as they are constructed and displayed in diverse forms of popular culture The main assumption is that involvement in contemporary schooling at any level as teacher student policymaker administrator or concerned citizen is conditioned by the sociocultural context in which schooling is understood a context that is in turn mediated by powerful forms of popular culture Paper edition 1872 3 19 95 Annotation c by Book News Inc Portland Or The Chosen Jerome Karabel, 2005 Drawing on decades of research Karabel shines a light on the ever changing definition of merit in college admissions showing how it shaped and was shaped by the country at large *Paper Soldiers* Clarence R. Wyatt, 1995-03 Praised and condemned for its aggressive coverage of the Vietnam War the American press has been both commended for breaking public support and bringing the war to an end and accused of misrepresenting the nature and progress of the war While in depth combat coverage and the instantaneous power of television were used to challenge the war Clarence R Wyatt demonstrates that more often than not the press reported official information statements and views Examining the relationship between the press and the government Wyatt looks at how difficult it was to obtain information outside official briefings what sort of professional constraints the press worked

Speaking Truth to Power Aaron Wildavsky, 2017-09-29 One of the foremost experts in public policy here attempts not only to describe what public policy is but given societal changes in the last two decades to account for its present status To learn from the past in order to establish public policy as a discipline in its own right Wildavsky traces its motifs from their beginnings in the 1960s to the 1980s Starting from the premise that there has been growing polarization of political elites he shows how public policy as a field has had to face increased politicization For Wildavsky the field of public policy needs to

incorporate more awareness of the human aspects of policy making he emphasizes the political choices to be made in a competitive environment and the social relations that sustain them When the first specialist schools devoted solely to public policy came into existence in the 1960s the programs of the Great Society were their main impetus With the disillusionment and failure of the Great Society the identity of public policy became transformed New theoretical issues had to be addressed In this volume Wildavsky provides a foundation for the theory no less than the practice of policy making Aaron Wildavsky is professor of political science University of California Berkeley He founded the School of Public Policy there and is presently its Director He was formerly Director of the Russell Sage Foundation He was the President of the American Political Science Association for the years 1986-1987 *Air University Review*, *State and Local Government* Herbert L. Lawrence R. Samuel, 2020-06-04 This history of success in the United States illustrates the degree to which personal and professional accomplishments have determined overall life satisfaction Beyond serving as a guide to the past present and future of success in America especially that found in the business world this book poses a provocative argument the standard practice of employing outer directed measures of success notably wealth power and fame has worked to the psychological disadvantage of many Americans More specifically it shows that a comparative and competitive view of success has made a significant number of individuals feel less successful than if more inner directed measures were used Ironically then the traditional model of success in the United States has been largely a failure This work offers historians practitioners and general readers of non fiction a blueprint for how to adopt a more meaningful and positive model of success in their everyday lives
