"Adding the journals, you'll read about things that are happening right now in our 'Current Events' section. In the 'American Citizens' or 'International news for people who don't speak great English' section, there will be half about governments. In the 'People and Technology' section, you'll discover some cool facts and technology that have affected our lives in some exciting ways. In the 'Wonders' section, you'll read fascinating facts about people who have had an important impact on our world. Finally, you'll find the section that shows off my writing talent and other's-appealing poems. But most of all, you'll see the best paper. What's our favorite part? We're so excited to connect people, connect and share the things in the World as it is for us, right now. In the 'Think and Write' section, you can all see everyone's reactions."

His backbones is literally made up of water. About the percentage of Earth is composed with water. There are just some backbones, and backbones. There are backbones."

For the purpose of this study, we used a modified version of the *Journal of Interpersonal Violence* (JIV) scale, which is a 15-item scale that measures the frequency of physical, psychological, and sexual violence against women. The JIV scale is a self-report measure that asks women to indicate how often they experienced each of the 15 items in the past 12 months. The items are grouped into three categories: physical violence (5 items), psychological violence (5 items), and sexual violence (5 items). The JIV scale has a Cronbach's alpha of .92, indicating high internal consistency.
