Although her career as a gardener for the university is flourishing the rest of her life has narrowed to a parched routine. Her father is elderly her brother estranged and she keeps her neighbours at arm's length. The missing element she realises might be friendship. As May sets off on a journey to visit four neglected friends one by one she holds herself and them to humorously high standards while at home she begins to confront the pain of her past and imagine for herself a different kind of future. May's quest becomes an exploration of the power and perhaps limits of modern friendship. **Commit for Success** Burn Lin, PhD, 2025-07-16 The author of this book is a world class scientist inventor educator and preacher. His profound influence on semiconductor technology has shaped Taiwan and the global industry leaving a lasting legacy.
