This guide uses the 2010 Knopf Doubleday Publishing Group Kindle edition.

**Content Warning:** The source text includes discussions of cultural and religious practices related to women's rights and explores sensitive topics, including gender roles, violence against women (including "honor killings" and female genital mutilation), and religious interpretations.

### Summary

In *Nine Parts of Desire: The Hidden World of Islamic Women*, Geraldine Brooks presents an exploration of the lives of Muslim women in various Islamic countries. The book, informed by her experiences as a foreign correspondent, traverses across countries like Iran, Saudi Arabia, and Egypt, among others, providing a panoramic view of the diverse interpretations and applications of Islamic teachings on women's roles.

Brooks examines how some of the Quran's verses are interpreted to shape women's lives, delving into issues such as veiling, segregation, and the legal rights of women in Islamic societies. She dissects the historical context of these practices, tracing them back to the life of the Prophet Muhammad and his wives, and moves forward to contemporary instances where these traditions intersect with modernity. The book does not follow a single narrative arc but is a compilation of vignettes and profiles, each shedding light on different aspects of the Islamic female experience.
