Peri-Urban Developments and Processes in Africa with Special Reference to Zimbabwe Innocent Chirisa, Elias Mazhindu, Elmond Bandaiko, 2016-05-23 This book focuses on peri urban development processes in Africa with special emphasis on Zimbabwe. The debates included highlight a number of issues in the peri urban context such as access to water, appropriate technologies and land management, political economy in the peri urban space, peri urban agriculture and place marketing in peri urban development among others. The debates raised by the authors in this book revolve around locating the peri urban space within the context of sustainability in which key issues are addressed. Peri urban dwellers currently face numerous challenges including land tenure insecurity, poor infrastructure and services, land use conflicts, stringent planning law and land use planning regulations. Handbook of Migration and Health Felicity Thomas, 2016-12-30 Migration is now firmly embedded as a leading global policy issue of the twenty first century. Against this evolving backdrop, this Handbook offers an authoritative overview of key debates underpinning migration and health in a contemporary global context.

Inclusive Businesses in Agriculture Wytse Chamberlain, Ward Anseeuw, 2017-03-30 Inclusive business is hailed as a win-win scenario for the development of poor communities, yet there is little insight into how these inclusive businesses work and more importantly for whom. This book aims for a thorough understanding of the range of inclusive businesses in agriculture by examining the structures they implement, the actors involved and whether they are effectively inclusive of smallholders. It presents a range of case studies and is therefore empirically based and practically oriented. By offering a critical assessment of inclusive businesses overall, it allows for a better perception of what works, where and under which conditions. It provides useful insights that will benefit smallholders, agri-businesses, support groups, policy makers and investors who are willing to promote more inclusive businesses that foster a better integration of smallholders into commercial value chains and a more equitable and sustainable agricultural sector.
