Mandatory Distributor Update Course

ProTex is not only a great Restaurant Fire Suppression System, it's the right marketing plan to fit your business. It is designed for maximum versatility to suit any installation. Flexible placement of piping, nozzles, and cylinders enable creative, efficient kitchen design. Using a wet chemical system agent, ProTex II is an ideal choice for meeting the stringent testing and approvals required today.

Course Outline

This course consists of comprehensive training in all aspects of the ProTex II system including a review of components and an overview of the Design and Installation by way of the ProTex II Training Manual, as well as hands on training.

Please note that installation and service training is required to become a ProTex II Distributor.

ProTex II is a natural addition to your product line. As a smaller distributor, you don't need to tie up large amounts of working capital in stocking inventories—ProTex

doesn't require them! If you are a larger company, ProTex can provide the independence of releasing you from multiple OEM's who have minimum annual purchase requirements. You can concentrate on developing your main systems line, possibly achieving greater discounts, while having a superior "second sale" product to back you up.
