African American Statewide Candidates in the

New South Charles S. Bullock, Susan A. MacManus, Jeremy D. Mayer, Mark J. Rozell, 2022 African American candidates for state and federal office in the United States face unique challenges given the nation's complicated racial dynamics. To date, there have been only two elected African American governors in the country: the first elected in Virginia in 1989 and the second in Massachusetts in 2006. While Black candidates running statewide have been elected in increasing numbers in many areas of the country, there have been fewer successes in the US South. The relative lack of success in the South for Black candidates is puzzling given that as a percentage of the population, the South has the highest concentration of African American citizens. This book examines the campaigns of Black statewide candidates in the South to untangle the factors that led to their electoral successes as well as the factors that continue to stymie positive electoral results. Looking at broader regional demographic and political trends, the authors project that the South is on the threshold of a major breakthrough for African American statewide candidates who will have a substantial role in not only fundamentally changing the political dynamics of the region but the nation as well. This change will be driven not only by Black candidates and voters but a rising regional coalition of racial minority and white voters who are increasingly willing to vote for Black candidates. 2025-26 UPPCS LT Grade General Studies. YCT Expert Team, 2025-26 UPPCS LT Grade General Studies 224-395 E. This book is very useful for the competitive students who are preparing for the forthcoming examinations. Neural bases of neurological and psychiatric disorders and their neuromodulation treatments Kai Wang, Jiaojian Wang, Yanghua Tian, Bochao Cheng, Hongming Li, 2023-03-23. *The Oxford Handbook of Hope* Matthew W. Gallagher, Shane J. Lopez, 2018 Hope has long been a topic of interest for psychologists, philosophers, educators, and physicians. In the past few decades, researchers from various disciplines and from around the world have studied how hope relates to superior academic performance, improved outcomes in the workplace, and improved psychological and physical health in individuals of all ages. Edited by Matthew W. Gallagher and the late Shane J. Lopez, *The Oxford Handbook of Hope* provides readers with a thorough and comprehensive update on the past 25 years of hope research while simultaneously providing an outline of what leading hope researchers believe the future of this line of research to be. In this extraordinary volume, Gallagher, Lopez, and their expert team of contributors discuss such topics as how best to define hope, how hope is distinguished from related philosophical and psychological constructs, what the current best practices are for measuring and quantifying hope, interventions and strategies for promoting hope across a variety of settings, the impact it has on physical and mental health, and the ways in which hope promotes positive functioning. Throughout its pages, these experts review what is currently known about hope and identify the topics and questions that will help guide the next decade of research ahead. Indian Polity & Governance Compendium for IAS Prelims General Studies Paper 1 & State PSC Exams 4th Edition Disha Experts, **Securing Australia's Future** Simon Torok, Paul Holper, 2017-05-29 The future will bring change for Australia. But whether that change is for the better or worse largely depends on the decisions we make today as individuals and as a nation. Recognising rapid changes in the global economy

environment and policy the Australian Government engaged the Australian Council of Learned Academies ACOLA to undertake detailed interdisciplinary research to help guide Australian thinking and policy decisions Dozens of Australia's finest minds assessed the opportunities available to the nation globally and domestically charting a course for the future The resulting findings can prepare Australia to address the challenges ahead and make the most of the opportunities Securing Australia's Future synthesises the major themes that emerge from ACOLA's reports Each chapter includes key findings designed to optimise Australia's prosperity and place in the region The future is a long game but its base must be built now This book provides a vision for the nation for its politicians public servants and industry leaders a sound footing for securing Australia's future It is a vital resource for Members of Federal and State parliaments senior public servants industry leaders universities and the interested public

**Attainment of SDGs through the Advancement in Solar PV systems** Praveen Kumar Balachandran, Sudhakar Babu Thanikanti, Bamidele Victor Ayodele, Murat Fahrioglu, Nnamdi Nwulu, 2024-11-15 With less than a decade until we reach 2030 it is crucial to address the deep inequalities affecting not only our health but also our quality of life and the economy of countries worldwide Few of the UN's Sustainable Development Goals SDGs can be directly and indirectly achieved through the implementation of renewable energy systems with a significant role being played by solar photovoltaic PV systems Solar PV systems are considered one of the most efficient methods of providing clean electrical energy which is vital to attaining these goals Numerous researchers across the globe are currently focusing on improving efficiency reducing costs recycling reconfiguring and developing materials for solar PV systems By utilizing renewable energy systems for daily needs such as power generation agriculture EV charging among others we can contribute to effectively achieving the SDGs However it is essential to assess and highlight the level of attainment of SDGs in ongoing research of solar PV systems This topic aims to provide a comprehensive analysis of the goals and bridge the gap between research and the aim of research in SDGs

Physics and Chemistry of the Arctic Atmosphere Alexander Kokhanovsky, Claudio Tomasi, 2020-01-29 This book presents current knowledge on chemistry and physics of Arctic atmosphere Special attention is given to studies of the Arctic haze phenomenon Arctic tropospheric clouds Arctic fog polar stratospheric and mesospheric clouds atmospheric dynamics thermodynamics and radiative transfer as related to the polar environment The atmosphere cryosphere feedbacks and atmospheric remote sensing techniques are presented in detail The problems of climate change in the Arctic are also addressed

Greek Iron Age Pottery in the Mediterranean World Stefanos Gimatzidis, 2024-06-06 Greek pottery is the most visible archaeological evidence of social and economic relations between the Aegean and the Mediterranean during the Iron Age a period of intense mobility This book presents a holistic study of the earliest Greek pottery exchanged in Greek Phoenician and other Indigenous Mediterranean cultural contexts from multidisciplinary perspectives It offers an examination of 362 Protogeometric and Geometric ceramic and clay samples analysed by Neutron Activation that Stefanos Gimatzidis obtained in twenty four sites and regions in eight countries Bringing

a macro historical approach to the topic through a systematic survey of early Greek pottery production exchange and consumption the volume also provides a micro history of selected ceramic assemblages analysed by a team of scholars who specialise in Classical Near Eastern and various prehistoric archaeologies The results of their collaborative archaeological and archaeometric studies challenge previous reconstructions of intercultural relations between the Aegean and the Mediterranean and call into question established narratives about Greek and Phoenician migration

*Artificial Intelligence for Solar Photovoltaic Systems* Bhavnesh Kumar, Bhanu Pratap, Vivek Shrivastava, 2022-07-29 This book provides a clear explanation of how to apply artificial intelligence AI to solve the challenges in solar photovoltaic technology It introduces readers to new AI based approaches and technologies that help manage and operate solar photovoltaic systems effectively It also motivates readers to find new AI based solutions for these challenges by providing a comprehensive collection of findings on AI techniques It covers important topics including solar irradiance variability solar power forecasting solar irradiance forecasting maximum power point tracking hybrid algorithms swarm optimization evolutionary optimization sensor based sun tracking systems single axis and dual axis sun tracking systems smart metering frequency regulation using AI emerging multilevel inverter topologies and voltage and reactive power control using AI This book is useful for senior undergraduate students graduate students and academic researchers in areas such as electrical engineering electronics and communication engineering computer science and renewable energy

Disha 21 Year-wise SBI Clerk Prelim & Main Exams Previous Year Solved Papers (2025 - 2009) 6th Edition | General Banking Disha Experts, The updated 6th edition of the book 21 SBI Clerk Preliminary Mains Previous Year wise Solved Papers 2025 2009 consists of the detailed solutions of the past 13 Papers of SBI Clerk Prelim Main Exams The book covers 8 SBI Clerk Prelim Papers held in 2016 2018 2019 2020 2021 2022 2023 2025 and 13 Mains Papers held between 2025 2009 The detailed solutions to all the papers are provided in the book The book will help you understand the pattern level of difficulty of questions These Solved Papers can also be attempted as Mock tests

**Curbside Consultation in Endoscopy** Joseph Leung, Simon K. Lo, 2024-06-01 Curbside Consultation in Endoscopy 49 Clinical Questions has been updated into a Second Edition The Second Edition contains new questions and is completely updated Curbside Consultation in Endoscopy 49 Clinical Questions Second Edition contains new questions and brief practical and evidence based answers to the most frequently asked questions that are posed during a curbside consultation between surgical colleagues Dr Joseph Leung and Dr Simon Lo have designed this unique reference which offers expert advice preferences and opinions on tough clinical questions and situations commonly encountered in endoscopy The unique Q A format provides quick access to current information related to therapeutic endoscopy with the simplicity of a conversation between two colleagues Illustrative images diagrams and references are included to enhance the understanding of endoscopy Some of the questions that are answered What Do People Do for the Treatment of Achalasia These Days Does it Matter if the Symptoms Are Severe or if the Patient Is Elderly I Had a Difficult Colonoscopy and No Matter What I Tried I

Just Could Not Reach the Cecum I Maxed Out on IV Sedations and Have No Anesthesiology Support Can You Help Me A 45 Year Old Patient With Known Hepatitis C Was Admitted Because of Massive Upper GI Bleeding What Should I Do A 55 Year Old Veteran Had a Ruptured Gallbladder and a Difficult Cholecystectomy Postoperatively the Patient Had Persistent Bile Leakage Despite Months of Multiple Biliary Stenting What Can I Do How Do We Manage a Patient With a 10 cm Pseudocyst Who Is Currently Asymptomatic What Is a Reliable Method to Estimate the Location of a Lesion Found on Capsule Endoscopy Curbside Consultation in Endoscopy 49 Clinical Questions Second Edition provides information basic enough for residents while also incorporating expert advice that even high volume clinicians will appreciate Gastroenterologists fellows and residents in training surgical attendings and surgical residents will all benefit from the user friendly and casual format and the expert advice contained within
