**Statistically** Kaycheng Soh,2016-08-09 This book shares the goal of the classic text How to Lie with Statistics namely preventing and correcting statistical misconceptions that are common among practitioners though its focus is on the educational context It illustrates and discusses the essentials of educational statistics that will help educational practitioners to do this part of their job properly i e without making conceptual mistakes The examples are cast in the school classroom contexts based on realistic rather than theoretical examples The strongest aspect of the work or author s view is that the author can put himself in the shoes of teachers and make the work a very practical guide for teachers and school leaders As a very experienced educator and researcher the author knows very well about the knowledge skills that are essential for the professional development of teachers He is able to explain the statistical and measurement concepts in plain language and with examples that are highly relevant to the target audience In addition the author also conveyed an important message to the target audience throughout the work by pointing out the mistakes and misunderstandings of the interpretation of test scores and measurement design The author reminds the audience about the importance of proper use of tests and test scores when teachers and school leaders make any education decisions which has much implication on the professional integrity of teachers and school leaders Dr Joyce Kwan The Education University of Hong Kong Hong Kong This book covers all the statistical tools for analyzing educational data and provides examples to explain the ideas Chapters 10 17 are practical data analysis in educational data that helps readers have a better understanding of the procedure to analyze the data Dr Alpha Ling The Education University of Hong Kong Hong Kong It looks like a very interesting book with attractive topics and practical problems in educational statistics Though the topics remind me of the classic book How to Lie with Statistics this book aims at preventing and correcting statistical misconceptions in educational context Dr Zhu Ying National Institute of Education Nanyang Technological University Singapore      *The Quirky Kampung Tales Of Ijan And His Early School Years* Saiful Lizan Muhamed,2022-11-30 The book is generally written in a humorous tone but there are poignant moments in the book where the narration takes on a more serious or sad tone where they are needed The book is about the growing up years of a boy called Ijan who grew up in a fast developing Singapore in the 1970s and 1980s in two different villages or kampung as they are called in Singapore Although the concept or notion of a kampung is now gone in the developed city of Singapore the book invites the readers to take a journey back to a historical Singapore as a backdrop Ingrained in the ways of the village Ijan the kampung boy had also attended schools which were very structured and the schools were where his parents were teachers As a kampung boy Ijan was accustomed to his roaming ways and as a teacher s son he was expected to behave

This was further compounded where it seemed Ijan's DNA had been hardwired with the characteristics of what was known in the village as a pusu dua anomaly. He was born with two hair whirls at the back of his head. This led to a somewhat disorderly hair disposition for Ijan but more significantly the villagers believed this anomaly brought with it certain traits to the afflicted boy. It was believed that a pusu dua boy would be a maverick of sorts hyperactive and stubborn to say the least. He was also believed to be blessed with a very endearing character especially to animals. The interesting contrast in environment character and expectations are the themes that carry the narration in this book with Ijan as the protagonist.

Innovative Pedagogy in Chinese Language Education Fangqiong Zhan, Guat Poh Aw, 2025-07-30 This book reflects on the Chinese education context in Singapore addressing the challenges of the Chinese language education system exploring innovative and efficient language teaching approaches and proposing new directions for Chinese education in Singapore. It explores Chinese education in the Singapore bilingual context in terms of language policy sociolinguistics cultural integration and pedagogical practice as well as providing a blueprint of Singapore's Chinese education for the future. It presents chapters from Singaporean scholars who are mostly from the department of Asian Language and Culture and the Office of Education Research in the National Institute of Education at Nanyang Technological University. This book examines the following topics: the sociolinguistic landscape beyond China and the positioning of Chinese in Singapore; pedagogical practices and methodologies in Singapore's bilingual education context; and Chinese textbooks and teaching materials in Singapore. This book serves as a useful reference for readers interested in language policy and Chinese education internationally for educators who encounter similar challenges in language education and for policy makers who aim to fine tune current policies to be more comprehensive and effective.

*Tests And Exams In Singapore Schools: What School Leaders, Teachers And Parents Need To Know* Kay Cheng Soh, 2017-09-22 Assessment mainly in the form of tests and examinations plays a critical role in the schooling of Singaporean students. The results are often used to make irrevocable decisions on the students' future education careers. This book is written with school leaders, teachers and parents in mind with the view of helping them to better understand the processes and products of assessment via tests and exams. It is written in simple terms using minimal technical terms and introduces school leaders, teachers and parents to essential concepts and principles of educational measurements which are relevant in the school context in Singapore. While existing books on educational measurement are academically oriented and meant for formal training courses, this book makes self study simple by using practical examples couched in layman's language. In addition, this book uses concrete examples and analogies to make the text reader friendly.

**Governance for Harmony in Asia and Beyond** Julia Tao, Anthony B. L. Cheung, Martin Painter, Chenyang Li, 2009-12-18 Harmony has become a major challenge for modern governance in the twenty first century because of the multi religious multi racial and multi ethnic character of our increasingly globalized societies. Governments all over the world are facing growing pressure to integrate the many diverse elements and subcultures which make up modern

pluralistic societies This book examines the idea of harmony and its place in politics and governance both in theory and practice in Asia the West and elsewhere It explores and analyses the meanings mechanisms dimensions and methodologies of harmony as a normative political ideal in both Western and Asian philosophical traditions The book argues that in Western political thought which sees politics as primarily concerned with resolving social conflicts and protecting individual rights the concept of harmony has often been neglected In contrast since earliest times harmony or he has been a profound theme in Confucian thought and current leaders of many East Asian governments and the Chinese government have explicitly declared that the realisation of a harmonious society is their aim The book also assesses how harmony is pursued jeopardized or deformed in the real world of politics based upon empirical analysis of a variety of different cultural social and political contexts including China Hong Kong Singapore Malaysia Singapore Vietnam Denmark Latin America and the Scandinavian countries It shows how harmony as an organizing concept can help to promote new thinking in governance and overcome problems of modern day governance like distrust adversarial conflicts hyper individualism coercive state intervention and free market alienation It also discusses the potential problems posed by the pursuit of harmony in particular in the grave threat of totalitarianism and considers how these risks could best be mitigated

Learning With An Ugly Alien Cedric Tan Jun Jia, After getting bad marks in Chinese class Cedric is determined to do better but he experiences difficulty learning the language He then meets an alien who wants to help change him Will he succeed in getting good grades **Beyond the Tiger Mom** Maya Thiagarajan, 2016-02-23 Beyond The Tiger Mom is filled with tips for parents such as how to build a language rich home and how to really get to know your child Harvard Ed Magazine *The administration of examinations for 15-19 year olds in England* Great Britain: Parliament: House of Commons: Education Committee, 2012-07-03 This report from the Education Committee looks at the administration of examinations for 15 19 year olds in England The Committee expresses serious concerns about incentives in the exam system and about competition on syllabus content Incentives in the system should be changed so the downward pressure through the competition of exam boards is mitigated The Committee considers a number of options to change incentives including i A single board This offers a simpler system with no risk of competition but the Committee believes the cost risk and disruption outweigh the benefits ii Franchising of subjects to exam boards This removes syllabus competition but again has downsides 3 Or the current system of multiple boards The Committee sees no benefit in competition on syllabus content but the setting and marking of exams and associated administration if properly regulated could generate incentives and drive quality up offering value for money to schools and colleges The Committee also recommends the development of national syllabuses accredited by Ofqual The syllabuses would be developed by exam boards in conjunction with learned bodies and employer organisations and could therefore retain the benefits of competition on quality and the incentive for exam boards to innovate *How the Great Spirit Shaped My Life* Tommy S. W. Wong, 2022-10-14 In spirituality there is a theory that a Great Spirit hovers around us It sees what we are doing

It guides us and protects us It also creates opportunities for us to meet the right people and participate in the right events so that we grow spiritually Is this theory true I don't know I'm an ordinary human being without any spiritual power However by looking at the events that happened in my present incarnation for the past 70 years I believe that there were many occasions in which the Great Spirit was active in my life In this book in nine chapters I share the people and events which I believe the Great Spirit has used to shape my life and moved me in directions that I had never dreamt of The chapters are 1 On my parents 2 On my studies 3 On my working life as an engineer and on my wife 4 On my working life as an academic 5 On my sporting achievements 6 On my working life as an editor and a consultant 7 On my working life as an author and a speaker 8 On my life mission and other life stories and 9 On the Great Spirit After living this life for seven decades and believing that it has been shaped by the Great Spirit I like to say that it's been a truly blessed life a life that is filled with meaning and fulfillment I hope this sharing enables you to be more aware of the Great Spirit in your life and you too will see your life as blessed meaningful and fulfilling May the Great Spirit be with you

**Developing Future-ready Learners for a Global Age** Suzanne S. Choo, Woon Chia Liu, Bee Leng Chua, 2024-12-02 Suzanne S Choo Woon Chia Liu and Bee Leng Chua offer a dynamic look into the tripartite relationship between education research policy and practice that characterizes Singapore's changing education landscape Over the years Singapore has garnered increasing attention internationally for its world class education system Pushing back against the stereotypical notions of exam and teacher centric education in Asia the contributors to this volume discuss opportunities as well as challenges in Singapore's innovation towards constructivist critical culturally responsive and cosmopolitan forms of learning Highlighting the pedagogical innovation and its context in Singapore's teacher education and schools the authors bridge theory and practice by providing an understanding of innovative practices informed by key shifts in Singapore's education policies and the key conceptual principles informing these practices More importantly it provides on the ground empirical insights into the ways these innovative pedagogical practices are enacted in the classroom and in teacher education programmes Each chapter provides an in depth understanding of how these pedagogies are applied across various subject disciplines including guided problem solving in Mathematics games based pedagogy in Science multimodal literacies in language ethical criticism in Literature Nonlinear Pedagogy in Physical Education multicultural approaches in music and dialogic pedagogy in drama among others Balancing theoretical and empirical focus this resourceful text will be of interest to students researchers and practitioners in educational development pedagogy and teacher education as well as policymakers across international fields in education
