- IEP
 - What is it? *An IEP is an individualized education program. It is a written agreement between the school and parent and is a legally binding document.*
 - Who has one? *Every student that is found eligible for special education has one.*
 - What types of things are taken into consideration when writing one? *It takes into consideration the strengths of the student, parent concerns, results of recent evaluations, academic skills, developmental skills, communication skills and functional needs.*
- Components of an IEP
 - Know each component and be able to describe it.
 - Present levels of performance
 - What are included in present levels of performance? *Identify the student's current academic, social, and behavioral functioning (including strengths and concerns). Describe how the student's disability affects his or her involvement and progress in the general education curriculum. Contain specific, measurable baseline information (should be measurable and observable). Link evaluation results, expectations of the general curriculum, and the goals of the student.*
 - Annual goals
 - What are annual goals based on? *Annual goals are based on what you expect the student to accomplish in the next 12 months. They address both academic and functional skills. Annual goals must be measurable and objective. They also must be individualized to the student instead of writing out a list of generic goals.*
 - LRE/related services
 - What are related services?

 - When is medical care a related service?
 - Does everyone in special education have them? *Not all students require relative services*
