Alfredo's Journey Alfredo Zotti, 2014-07-14 More than a just a journey, Alfredo gives us a blueprint for humane treatment of mental illness. In 1981, twenty-three-year-old Alfredo Zotti began his lifelong challenge of living with Bipolar II Disorder. He quickly hit rock bottom, spending time as a homeless person and turning to street drugs and alcohol to medicate his symptoms. After hospitalization and careful outpatient monitoring, he became a successful musician and completed university. In 2004, he started to mentor sufferers of mental illness, and together they developed an online journal. Alfredo now sees mental illness from a new perspective, not of disadvantages but advantages. In his words: Having a mental illness can be a blessing if we work on ourselves. In this memoir and critique of mental illness, the reader will learn how empathic listening and being with someone can help calm that person's symptoms. The power of singing to create a safe space in a community. Why spirituality can be a key component in the healing process. The connections between mental illness, artistic expression, and people who think differently. The impact of childhood trauma on our psyche and its role in mental illness. The dangers of antipsychotics and antidepressants. The amazing connection between heart and brain and how we can cultivate it. The challenges of love and marriage between partners with Bipolar Disorder. Alfredo's story and his insights into the causes and treatment of mental ill health are incredibly moving and impressive. His humanity, intelligence, creativity, and his generosity and compassion towards people affected by mental illness, and dedicated mental health professionals, shine through the pages of his book. Professor Patrick McGorry AO MD PhD Executive Director OYH Research Centre University of Melbourne. As a clinician and academic, one can study and research every known aspect of a disorder and write scholarly articles for learned journals, but none of this holds the potency of an individual relaying his or her lived experience. Alfredo does just this in his inimitable style, offering hope at every juncture to those who travel a similar road. The story should be read by clinicians, academics, and sufferers alike.
