The Accumulation Of Capital:

The Accumulation of Capital Rosa Luxemburg, 2015-05-21 Rosa Luxemburg was a revolutionary socialist who fought and died for her beliefs In January 1919 after being arrested for her involvement in a workers uprising in Berlin she was brutally murdered by a group of right wing soldiers Her body was recovered days later from a canal Six years earlier she had published what was undoubtedly her finest achievement The Accumulation of Capital a book which remains one of the masterpieces of socialist literature Taking Marx as her starting point she offers an independent and fiercely critical explanation of the economic and political consequences of capitalism in the context of the turbulent times in which she lived reinterpreting events in the United States Europe China Russia and the British Empire Many today believe there is no alternative to global capitalism This book is a timely and forceful statement of an opposing view The Accumulation of Capital Joan Robinson, 1986 The Accumulation of Capital (Classic Reprint) Rosa Luxemburg, 2015-07-02 Excerpt from The Accumulation of Capital This is an original translation not only of the main body of the work but also of a number of quotations from foreign authors Page references thus usually indicate the original foreign sources In so far as possible however I have availed myself of existing translations and have referred to the following standard works Karl Marx Capital vol i transl by Moore Aveling London 1920 vol ii transl by E Untermann Chicago 1907 vol iii transl by E Untermann Chicago 1909 The Poverty of Philosophy translator s name not given London 1936 Sismondi s introduction to the second edition of Nouveaux Principes is quoted from M Mignet s translation of selected passages by Sismondi entitled Political Economy and the Philosophy of Government London 1847 No English translation exists of Marx s Theorien uber den Mehrwert Unfortunately not all the West European texts and none of the Russian except Engel s correspondence with Nikolayon were accessible to me and I regret having been unable to trace some quotations and check up on others In such cases the English version follows the German text and will at least bring out the point the author wanted to make To save the reader grappling with unfamiliar concepts I have converted foreign currencies and measures into their English equivalents at the following rates 20 marks 25 francs 5 1 gold standard 1 hectare roughly 2 5 acres 1 kilometre 5 8 mile I am glad of this opportunity to express my gratitude to Dr W Stark and Mrs J Robinson for the helpful criticism and appreciation with which my work has met About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Joan Robinson: Writings on Economics** J. classic work today These selected paragraphs distill the contents and give you a quick look inside *The Accumulation of Capital* Look inside the book The thread of analysis running through the historical illustrations is not easy to pick up but the main argument seems to be as follows As soon as a primitive closed economy has been broken into by force or guile cheap mass produced consumption goods displace the old hand production of the family or village communities so that a market is provided for ever increasing outputs from the industries of Department II in the old centres of capitalism without the standard of life of the workers who consume these commodities being raised The analysis which best fits Rosa Luxemburg's own argument and the facts is that armaments provide an outlet for the investment of surplus over and above any contribution there may be from forced saving out of wages which unlike other kinds of investment creates no further problem by Pg 28 increasing productive capacity not to mention the huge new investment opportunities created by reconstruction after the capitalist nations have turned their weapons against each other About Rosa Luxemburg the Author Bei Eberts Versuch den nach dem Reichsrtekongress immer stärker spartakistischen Berliner Vollzugsrat gemigte Mitglieder und Untersttzer hatten ihn zunehmend verlassen nachdem nach dem Reichsrtekongress der Weg zu allgemeinen Wahlen offen erschien zu entmachten und die spartakistenfreundliche Volksmarinedivision die inzwischen das Berliner Stadtschlo besetzt hatte aufzulsen kam es am 24 In kritischem Bezug auf die Marx'schen Ausführungen zum Schema der erweiterten Reproduktion Kapitalakkumulation im zweiten Band des *Kapital* weist sie unter anderem auch mit Bezug auf Engels Bemerkungen zu Marx Manuskripten nach dass Marx diesen Punkt nicht abschließend und widerspruchsfrei ausgearbeitet hat sondern vielmehr seiner eigenen Lösung an anderer Stellen nämlich im dritten Band und in den Theorien über den Mehrwert widerspricht und seine Lösung eine einfache arithmetische Konstruktion ist
