Kennedy, Thomas Bailey, Lizabeth Cohen, 2005-02-23 *Children's Books in Print, 2007, 2006* **The American War in Vietnam** John Marciano, 2016-08 On May 25 2012 President Obama announced that the United States would spend the next thirteen years commemorating the 50th anniversary of the Vietnam War and the more than 58 000 patriots who died there The fact that 3 million Vietnamese soldiers parents grandparents children also died will be largely unknown and entirely uncommemorated U S history barely stops to record the millions of Vietnamese who lived on after being displaced tortured maimed raped or born with birth defects the result of devastating chemicals wreaked on the land by the U S military The reason for this disconnect lies in an unrelenting public relations campaign waged by top American politicians military leaders business people and scholars who have spent the last sixty years justifying the U S presence in Vietnam The American War in Vietnam challenges all of us to stop the ongoing U S war on actual history Marciano reveals the grandiose flag waving that stems from the Noble cause principle the notion that America is chosen by God to bring democracy to the world The result is critical writing and teaching at its best This book will provide students everywhere with insights that can prepare them to change the world Cover

Sullivan, 2014-10-06 On May 17 1899 Patrick Sullivan married Mary Jane Carroll in Yonkers New York despite the objections of Patrick's family who believed he was marrying below his class But their dreams of living a long life together came to an end when Patrick died unexpectedly on August 13 1911 leaving Mary destitute with four children and a fifth who was born three weeks after Patrick's death Shunned by Patrick's family Mary and her children fought off starvation in a tenement in Yonkers for several months Then one evening she was visited by her two brothers John and Barney who insisted her entire family move into and share their meager home at Six Moquette Row There the children were raised by their grandmother mother and their two loving uncles A story for the ages Six Moquette Row by author John F Sullivan narrates the true story of how one family's love and a shared devotion to one another turned what would have inevitably been a horrific tragedy into an incredible success story that now totals more than eighty descendants **Erasing History** Jason Stanley, 2024-09-10 From the bestselling author of How Fascism Works is a searing confrontation with the far right's efforts to rewrite history and undo a century of progress on race gender sexuality and class The human race finds itself again under threat of a rising global fascist movement In the United States democracy is under attack by an authoritarian movement that has found fertile ground among the country's conservative politicians and voters but similar movements have found homes in the hearts and minds of people all across the globe To understand the shape form and stakes of this assault we must go back to extract lessons from our past Democracy requires a common understanding of reality a shared view of what has happened that informs ordinary citizens' decisions about what should happen now and in the future Authoritarians target this shared understanding seeking to separate us from our own history to destroy our self understanding and leave us unmoored resentful and confused By setting us against each other authoritarians present themselves as the sole solution In authoritarian countries critical examination of those nations history and traditions is discouraged if not an outright danger to those who do it And it is no accident that local and global institutions of education have become a battleground the authoritarian right's tip of the spear where learning and efforts to upend a hierarchical status quo can be put to end by coercion and threats of violence Democracies entrust schools and universities to preserve a common memory of positive change generated by protests social movements and rebellions The

authoritarian right must erase this history and along with it the very practice of critical inquiry that has so often been the engine of future progress

*Nullification and Secession in Modern Constitutional Thought* Sanford Levinson, 2016-09-09 The Missouri legislature passes a bill to flout federal gun control laws it deems unconstitutional Texas refuses to recognize same sex marriages citing the state's sovereignty The

Tenth Amendment Center promotes the Federal Health Care Nullification Act In these and many other similar instances the spirit of nullification is seeing a resurgence in an ever more politically fragmented and decentralized America What this means in legal cultural and historical terms is the question explored in *Nullification and Secession in Modern Constitutional Thought* Bringing together a number of distinguished scholars the book offers a variety of informed perspectives on what editor Sanford Levinson terms neo nullification a category that extends from formal declarations on the invalidity of federal law to what might be called uncooperative federalism Mark Tushnet Mark Graber James Read Jared Goldstein Vicki Jackson and Alison La Croix are among the contributors who consider a strain of federalism stretching from the framing of the Constitution to the state of Texas s most recent threat to secede from the United States The authors look at the theory and practice of nullification and secession here and abroad discussing how contemporary advocates use the text and history of the Constitution to make their cases and how very different texts and histories influence such movements outside of the United States in Scotland for instance or Catalonia or Quebec or even England vis vis the European Union Together these essays provide a nuanced account of the practical and philosophical implications of a concept that has marked America s troubled times from the build up to the Civil War to the struggle over civil rights to battles over the Second Amendment and Obamacare

**History Textbooks and the Wars in Asia** Gi-Wook Shin, Daniel C. Snider, 2011-02-08 Over the past fifteen years Northeast Asia has witnessed growing intraregional exchanges and interactions especially in the realms of culture and economy Still the region cannot escape from the burden of history This book examines the formation of historical memory in four Northeast Asian societies China Japan South Korea and Taiwan and the United States focusing on the period from the beginning of the Sino Japanese war in 1931 until the formal conclusion of the Pacific War with the San Francisco Peace Treaty of 1951 The contributors analyse the recent efforts of Korean Japanese and Chinese scholars to write a common history of Northeast Asia and question the underlying motivations for their efforts and subsequent achievements In doing so they contend that the greatest obstacle to reconciliation in Northeast Asia lies in the existence of divided and often conflicting historical memories The book argues that a more fruitful approach lies in understanding how historical memory has evolved in each country and been incorporated into respective master narratives Through uncovering the existence of different master narratives it is hoped citizens will develop a more self critical self reflective approach to their own history and that such an introspective effort has the potential to lay the foundation for greater self and mutual understanding and eventual historical reconciliation in the region This book will be essential reading for students and scholars of Asian history Asian education and international relations in East Asia
