The Ashtray Errol Morris, 2023-02-17 In 1972 philosopher of science Thomas Kuhn threw an ashtray at Errol Morris This book is the result At the time Morris was a graduate student Now we know him as one of the most celebrated and restlessly probing filmmakers of our time the creator of such classics of documentary investigation as *The Thin Blue Line* and *The Fog of War* Kuhn meanwhile was and posthumously remains a star in his field the author of *The Structure of Scientific Revolutions* a landmark book that has sold well over a million copies and introduced the concept of paradigm shifts to the larger culture And Morris thought the idea was bunk *The Ashtray* tells why and in doing so it makes a powerful case for Morris's way of viewing the world and the centrality to that view of a fundamental conception of the necessity of truth For me Morris writes truth is about the relationship between language and the world a correspondence idea of truth He has no patience for philosophical systems that aim for internal coherence and disdain the world itself Morris is after bigger game he wants to establish as clearly as possible what we know and can say about the world reality history our actions and interactions It's the fundamental desire that animates his filmmaking whether he's probing Robert McNamara about Vietnam or the oddball owner of a pet cemetery Truth may be slippery but that doesn't mean we have to grease its path of escape through philosophical evasions Rather Morris argues powerfully it is our duty to do everything we can to establish and support it
