

**U.S. History – Regents Review Packet****1. Colonial America (1607-1763)****Main Facts to Remember**

- The earliest colonies in North America were:
  - JAMESTOWN, Virginia – settled by businessmen from England who sought to make money by growing and selling tobacco; the area had fertile soil and Virginia grew into a powerful colony of tobacco **plantations** (large farms where slaves did most of the work).
  - MASSACHUSETTS BAY (sometimes called Plymouth) – settled by Puritans from England who were seeking religious freedom for themselves; the Puritans built towns, with small farms on the outskirts.
  - NEW AMSTERDAM – settled by Dutch traders who settled on Manhattan island; in the beginning they mainly traded furs; New Amsterdam was later taken over by the British and renamed "New York".
- Each of these colonies was built on the Atlantic Coast, close to the water (better for trade).
- The policy that the British followed toward the colonies was called **mercantilism** – this means that a "mother country" (like England) had colonies (like America) for two main reasons: 1. to get raw materials; 2. to create new markets (places to sell their products); it also meant that the colony was not allowed to compete economically with the mother country.
- The British also followed a policy of **salutary neglect** toward the American colonies – this meant that the British pretty much left the Americans alone in their day-to-day lives, as long as raw materials kept being shipped to England and as long as Americans bought only British-made products.
- Early examples of democracy in the American colonies:
  - The **Mayflower Compact**: An agreement made by the first Puritan settlers in Massachusetts – it said that they would follow the idea of self-government.
  - The **House of Burgesses**: In Virginia, this was the first elected legislature in the American colonies; it was a first step towards representative government (a government where people could elect their own representatives).

high school social studies teacher takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high school history curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students Discipline Problems reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners *Let's Review: U.S. History and Government* John McGeehan, Morris Gall, 2001-02-01 High school teachers and students recognize Barron's Let's Review titles as important test preparation books and valuable complements to Barron's Regents Exams and Answers books They cover the topics specified by the New York State Board of Regents and contain subject review material with review questions as well as actual Regents Exams with answers New editions have been updated to reflect the latest changes in Regents Exam formats This book reviews the formation of the Constitution and how it was tested during the Civil War Other major topics include industrialization of the United States the Great Depression and the New Deal the United States in an Age of Global Crisis 1933-45 the Cold War and its effects at home and abroad and the state of the nation through the end of the Clinton Administration Cracking the Regents Earth Science, 2000 Edition Princeton Review Publishing Staff, Kim Magloire, 2000-02-15 5 Actual Exams with Answers Explained Plus the August 1999 Exam It's no secret The best way to ace the Regents exam is by practicing on real tests This guide includes 5 actual full length Earth Science Regents exams with answers and complete explanations plus the August 1999 exam In Cracking the Regents Earth Science 2000 Edition the Regents experts at The Princeton Review teach you the test taking techniques you'll need to know Focus on the material that is most likely to show up on the test Use process of elimination to guess when you're not sure of an answer Practice your skills on the actual Earth Science Regents exams inside Visit [www.review.com/regents](http://www.review.com/regents) for the latest Regents updates and for the January 2000 exam Guide to the Study of United States History Outside the U.S., 1945-1980: Essays and reports, 1985 **Catalog of Copyright Entries** Library of Congress.
