Handbook of the Sociology of Medical Education Caragh Brosnan,Bryan S. Turner,2009-09-10 The Handbook of the Sociology of Medical Education provides a contemporary introduction to this classic area of sociology by examining the social origin and implications of the epistemological organizational and demographic challenges facing medical education in the twenty first century Beginning with reflections on the historical and theoretical foundations of the sociology of medical education the collection then focuses on current issues affecting medical students the profession and the faculty before exploring medical education in different national contexts Leading sociologists analyze the intersection of medical education and social structures such as gender ethnicity and disability the effect of changes in medical practice such as the emergence of evidence based medicine on medical education and the ongoing debates surrounding the form and content of medical curricula By examining applied problems within a framework which draws from social theorists such as Pierre Bourdieu this new collection suggests future directions for the sociological study of medical education and for medical education itself

Shapiro,2023-01-31 Beyond political posturing and industry quick fixes why is the American health care system so difficult to reform Health care reform efforts are difficult to achieve and have

been historically undermined by their narrow scope In *The Present Illness* Martin F Shapiro MD PhD MPH weaves together history sociology extensive research and his own experiences as a physician to explore the broad range of afflictions impairing US health care and explains why we won't be able to fix the system without making significant changes across society With a sharp eye and ready humor Shapiro dissects the ways all groups participating clinicians and their organizations medical schools and their faculty hospitals and clinical corporations scientists and the National Institutes of Health insurers and manufacturers governments and their policies and also patients and the public shape and reinforce a dysfunctional system Shapiro identifies three major problems stymieing reform commodification of care values expectations unmet needs attitudes and personal limitations of participants and toxic relationships and communication among these groups Shapiro lays out a sweeping agenda of concrete actions to address the many factors contributing to the system's failings Highlighting the interconnectedness of both the problems and potential solutions he warns that piecemeal reform efforts will continue to be undermined by those who believe they have something to gain from the status quo Although overhauling our health care system is daunting Shapiro nonetheless concludes that we must push forward with a far more comprehensive effort in all sectors of health care and throughout society to create a system that is humane effective and just

Breaking Ground Louis Wade Sullivan, David Chanoff, 2014 While Louis W Sullivan was a student at Morehouse College Morehouse president Benjamin Mays said something to the student body that stuck with him for the rest of his life The tragedy of life is not failing to reach our goals Mays said It is not having goals to reach In *Breaking Ground* Sullivan recounts his extraordinary life beginning with his childhood in Jim Crow south Georgia and continuing through his trailblazing endeavors training to become a physician in an almost entirely white environment in the Northeast founding and then leading the Morehouse School of Medicine in Atlanta and serving as secretary of Health and Human Services in President George H W Bush's administration Throughout this extraordinary life Sullivan has passionately championed both improved health care and increased access to medical professions for the poor and people of color At five years old Louis Sullivan declared to his mother that he wanted to be a doctor Given the harsh segregation in Blakely Georgia and its lack of adequate schools for African Americans at the time his parents sent Louis and his brother Walter to Savannah and later Atlanta where greater educational opportunities existed for blacks After attending Booker T Washington High School and Morehouse College Sullivan went to medical school at Boston University he was the sole African American student in his class He eventually became the chief of hematology there until Hugh Gloster the president of Morehouse College presented him with an opportunity he couldn't refuse Would Sullivan be the founding dean of Morehouse's new medical school He agreed and went on to create a state of the art institution dedicated to helping poor and minority students become doctors During this period he established long lasting relationships with George H W and Barbara Bush that would eventually result in his becoming the secretary of Health and Human Services in 1989 Sullivan details his experiences in Washington dealing with

the burgeoning AIDS crisis PETA activists and antismoking efforts along with his efforts to push through comprehensive health care reform decades before the Affordable Care Act Along the way his interactions with a cast of politicians including Thurgood Marshall Jack Kemp Clarence Thomas Jesse Helms and the Bushes capture vividly a particular moment in recent history Sullivan's life from Morehouse to the White House and his ongoing work with medical students in South Africa is the embodiment of the hopes and progress that the civil rights movement fought to achieve His story should inspire future generations of all backgrounds to aspire to great things A Sarah Mills Hodge Fund Publication
