What the War Means to Us ,1942 Teaching Critically About Lewis and Clark Alison Schmitke,Leilani Sabzalian,Jeff Edmundson,2020 The Lewis and Clark Corps of Discovery is often presented as an exciting adventure story of discovery friendship and patriotism However this same period in U S history can be understood quite differently when viewed through anticolonial lens and the Doctrine of Discovery How might educators critically interrogate the assumptions that underlie this adventure story through their teaching This book challenges dominant narratives and packaged curriculum about Lewis and Clark to support more responsible social studies instruction The authors provide a conceptual framework ready to use lesson plans and teaching resources to address oversimplified versions of the Lewis and Clark expedition Indigenous perspectives along with contemporary issues are embedded in each lesson to encourage active and critical engagement with history and the legacies of conquest those living in what is now called the United States have inherited Book Features Offers a new look at social studies curriculum about the Corps of Discovery and Manifest Destiny through the Doctrine of Discovery Includes examples of how Indigenous peoples have long engaged in philosophical legal and political challenges to the principles of the Doctrine Provides social studies lesson plans for elementary and secondary classrooms Offers useful curriculum materials to help teachers present a deeper examination of this topic **Teaching about the United Nations in the United States** United States. Department of Commerce,1950 Effectiveness of Time Investments in Education Jaap Scheerens,2013-08-15 This book analyzes the productivity and effectiveness of a variety of time investments in education It explores the methods used in education to optimize the time that students are exposed to learning content Such methods include expanding official school time optimizing time on task providing homework assignments and creating learning opportunities beyond lesson hours The book presents a review of earlier reviews and meta analyses secondary analyses of international data sets and new meta analyses concerning the effects of instruction time homework and extended learning beyond official school time It explores the concept of time as a condition to enhance student achievement and discusses methodological issues in separating genuine time effects from related facets of educational quality The book shows that the dependence of time effects on the quality of content choice and delivery raises critical questions for both researchers and policy planners It further shows that sophisticated research designs are required to properly assess time effects and that policy makers should be concerned about the bluntness of time as an instrument to enhance educational productivity **Changing and Unchanging Face of U.S. Civil Society** Marcella Ridlen Ray,2017-12-02 Ray has written a book that should be read by anyone interested in the current debates about the general health of civil society in the United States *American Journal of Sociology* The formation maintenance and well being of American civil society is a topic of intense debate in the social sciences Until now this debate has lacked rigor with the term civil society commonly used interchangeably and imprecisely with other terms such as civic engagement Today s discourse also lacks methodological discipline and relies too heavily on narrowly selected evidence in support of a particular argument In this invaluable contribution to the debate Marcella Ridlen Ray supplies an empirical study based on a theoretical model of democratic civil society one that posits high levels of communication diversity autonomy mediation and voluntary association In Ray s account the emergent story of U S civil society is that of a dynamic institution not necessarily one that is linear in its progression It is a tale of flux resilience and stability over the long term that is consistent with subtexts on political equilibrium she notes in the work of early political analysts such as Aristotle Machiavelli Locke Burke and later Tocqueville Ray dispels the widely accepted myth that Americans are increasingly apathetic and withdrawn from common interests The evidence reveals a persistence of long standing public spiritedness despite the fact that individuals use wider discretion in deciding if and how to attach to community and despite a historical

lack of enthusiasm for performing civic duties in lieu of more pleasurable leisure activity This public spiritedness continues to reflect embedded religious cultural values that disproportionately influence how and when people dedicate time and money to associational life U S civil society has grown more inclusive and democratic as Americans venture at growing rates across differences in perspective *The Administration of Public Education in the United States* Samuel Train Dutton, David Snedden, 1924 *Foreign Commerce Weekly* , 1950 *The Publishers Weekly* , 1884
