 community BACKGROUND KNOWLEDGE AND FUTURE PERFORMANCE The Institution of Civil Engineers has collaborated  
 with internationally renowned bridge engineers to organise three successful conferences to celebrate the enormous  
 achievements made in the field of bridge engineering in recent years As a discipline bridge engineering not only requires  
 knowledge and experience of bridge design and construction techniques but must also deal with increasing challenges posed  
 by the need to maintain the long term performance of structures throughout an extended service life In many parts of the  
 world natural phenomena such as seismic events can cause significant damage to force major repairs or reconstruction  
 Therefore it is appropriate that the first plenary session of this conference is entitled Engineering for Seismic Performance  
 READERSHIP This compilation of papers will benefit practising civil and structural engineers in consulting firms and  
 government agencies bridge contractors research institutes universities and colleges In short it is of importance to all  
 engineers involved in any aspect of the design construction and repair maintenance and refurbishment of bridges **Bridge**
