**Proceedings of the 6th International Conference on Big Data and Internet of Things** Mohamed Lazaar,El Mokhtar En-Naimi,Abdelhamid Zouhair,Mohammed Al Achhab,Oussama

Mahboub,2023-03-28 This book is a collection of papers that were presented at the 6th International Conference on Big Data

Cloud and Internet of Things BDIoT 2022 The conference took place on October 25-27, 2022, Tangier, Morocco. The book consisted of 49 chapters which correspond to the four major areas that are covered during the conference: namely Big Data, Cloud Computing, Cybersecurity, Machine Learning, Deep Learning, E-Learning, Internet of Things, Information System, and Natural Language Processing. Every year BDIoT attracted researchers from all over the world, and this year was no exception; the authors received 98 submissions from 7 countries. More importantly, there were participants from many countries, which indicates that the conference is truly gaining more and more international recognition as it brought together a vast number of specialists who represented the aforementioned fields and share information about their newest projects. Since the authors strived to make the conference presentations and proceedings of the highest quality possible, the authors only accepted papers that presented the results of various investigations directed to the discovery of new scientific knowledge in the area of Big Data, IoT, and their applications. All the papers were reviewed and selected by the Program Committee, which comprised 96 reviewers from over 58 academic institutions. As usual, each submission was reviewed following a double process by at least two reviewers. When necessary, some of the papers were reviewed by three or four reviewers. Authors' deepest thanks and appreciation go to all the reviewers for devoting their precious time to produce truly through reviews and feedback to the authors.

**Transforming Schools Using Project-Based Learning, Performance Assessment, and Common Core Standards** Bob Lenz, Justin Wells, Sally Kingston, 2015-01-27 It's not what students know but what they do with what they know that is important. Schools are changing in response to this reality, and in *Transforming Schools Using Project-Based Learning, Performance Assessment, and Common Core Standards*, Bob Lenz, Justin Wells, and Sally Kingston draw on the example of the Envision Education schools, as well as other leading schools around the country, to show how the concept of deeper learning can meet the need for students who are both college- and career-ready and engaged in their own education. In this book, the authors explain how project-based learning can blend with Common Core-aligned performance assessment for deeper learning. You'll discover how many schools have successfully made the transition from traditional teacher-centered

learning to project based deeper learning and find many practical ideas for implementation Companion DVD and website include videos showing how to implement deeper learning strategies in the classroom Evidence based descriptions show why deeper learning is right for students Performance assessment experts explain how to align assessments with Common Core by shifting the emphasis from knowing to doing Extensive game plan section provides step by step guidance for change Schools are complex organizations and transformation involves all of the stakeholders from students to superintendents But as this book shows there are amazing benefits to be realized when everyone commits to diving deeper into learning
