**A Guide to Early Jewish Texts and Traditions in Christian Transmission** Alexander Kulik, Lorenzo DiTommaso, 2019. The Jewish culture of the Hellenistic and early Roman periods established a basis for all monotheistic religions but its main sources have been preserved to a great degree through Christian transmission. This Guide is devoted to problems of preservation, reception and transformation of Jewish texts and traditions of the Second Temple period in the many Christian milieus from the ancient world to the late medieval era. It approaches this corpus not as an artificial collection of reconstructed texts, a body of hypothetical originals but rather from the perspective of the preserved materials examined in their religious, social and political contexts. It also considers the other non-Christian channels of the survival of early Jewish materials including Rabbinic, Gnostic, Manichaean and Islamic. This unique project brings together scholars from many different fields in order to map the trajectories of early Jewish texts and

traditions among diverse later cultures It also provides a comprehensive and comparative introduction to this new field of study while bridging the gap between scholars of early Judaism and of medieval Christianity
