*Second Thoughts* Janet M. Ruane, Karen A. Cerulo, 2014-08-21 Co authored by Karen A Cerulo the Eastern Sociological Society's Robin L Williams Lecturer for 2013 2014 Do birds of a feather flock together or do opposites attract Is honesty the best policy Are children our most precious commodity Is education the great equalizer Adages like these shape our social life This Sixth Edition of *Second Thoughts* reviews several popular beliefs and notes how these conventional wisdoms cannot be taken at face value but instead require careful second thoughts This unique text encourages students to step back and sharpen their analytic focus with 25 essays that use social research to expose the gray areas of commonly held beliefs revealing the complexity of social reality and sharpening students sociological vision      Crowdfunding: The Story of People Irfan Bashir, Ravina Banze, 2020-12-25 If we can acknowledge that our fate is connected with the fate of others and that of the collective world then we must ask ourselves how we can improve the world within our capacity How do we progress while ensuring the socio economic and emotional wellbeing of others One of the answers is through Crowdfunding Crowdfunding The Story Of People uses a data driven storytelling approach to capture the impact and potential of crowdfunding in a world governed by inequality It does so while maintaining a constant grip on both the micro and macro perspectives of collective giving social collaboration and financial inclusion As people we see life from a shared prism but how we interpret it often varies All of us have a unique way of deriving meaning from the stories around us We all share an inherent tendency to look at something small and connect it with larger patterns It is how we make sense of our world through connections patterns and shared interpretations By stitching together stories and data from around the world the authors have successfully mapped the crowdfunding universe in a lucid and riveting manner The authors flip through the pages of history to shed light on people's collective efforts and diverse fundraising techniques that have evolved into modern day crowdfunding They explore the current industry trends of crowdfunding the challenges it faces and piece together the potential solutions to those problems      *Gods in the Global Village* Lester R. Kurtz, 2012 In an era plagued by religious conflict the Third Edition of *Gods in the Global Village* directly responds to issues of social problems prevalent in the world today Using an engaging thought provoking style author Lester R Kurtz focuses on the relationship among the major faith traditions that inform the thinking and ethical standards of most people in the emerging global social order This book focuses on a central aspect of

that common crisis A major assumption of this book is that all knowledge is shaped by the social context of the knower therefore both religious traditions and our studies of them are shaped by the context in which we construct them The author argues that religious pluralism will be a necessary precondition of the global village for the foreseeable future The question that faces us as a human community is not Which religious tradition is true or even Is any religious tradition true but rather How can we enable the various religious and secular traditions to coexist peacefully on the planet The text supports the belief that the sociology of religion itself a pluralistic discipline can provide invaluable insight into the most pressing problems of our time

Ruane, 2016-02-16 *Introducing Social Research Methods* Essentials for Getting the Edge is a concise and student friendly introduction to research methods that uses examples from around the world to illustrate the centrality of social science research in our everyday lives Explains complex multi faceted concepts and methodologies in straightforward prose Designed for students who are new to or skeptical of social science research methods as useful tools for approaching real world challenges Persuasively argues that social scientific proficiency unlocks an array of personal and professional opportunities beyond the realms of academia A supplementary website features a glossary test bank Power Point presentations a comprehensive list of web resources a guide to relevant TED lectures and much more

*Dreams of a Lifetime* Karen A. Cerulo, Janet M. Ruane, 2022-06-21 How social status shapes our dreams of the future and inhibits the lives we envision for ourselves Most of us understand that a person's place in society can close doors to opportunity but anything is possible when we dream about what might be or so we think *Dreams of a Lifetime* reveals that what and how we dream and whether we believe our dreams can actually come true are tied to our social class gender race age and life events Karen Cerulo and Janet Ruane argue that our social location shapes the seemingly private and unique life of our minds We are all free to dream about possibilities but not all dreamers are equal Cerulo and Ruane show how our social position ingrains itself on our mind's eye quietly influencing the nature of our dreams whether we embrace dreaming or dream at all and whether we believe that our dreams from the attainable to the improbable can become realities They explore how inequalities stemming from social disadvantages pattern our dreams for ourselves and how sociocultural disparities in how we dream exacerbate social inequalities and limit the life paths we believe are open to us Drawing on a wealth of original interviews with people from diverse social backgrounds *Dreams of a Lifetime* demonstrates how the study of our dreams can provide new avenues for understanding and combatting inequality including inequalities that precede action or outcome

*Structural Racism* Stephen Menendian, 2025-06-30 This book explains how racial inequality in the United States is produced and perpetuated and what should be done about it It develops the elusive concept of structural racism presenting a precise definition that is clear and comprehensible and illustrates how it operates methodically and rigorously Many other books are long on problems and short on solutions whereas this book develops the key principles that must ground a structural reform agenda and then presents a broad ranging set of interventions organized

around ten themes that will reduce racial disparities while expanding opportunity for all Unlike most books on race which focus on a particular issue or sector this book is comprehensive in its scope encompassing the vital systems that shape racial inequality in contemporary American society from education and public schools to income and wealth disparities to housing and health care to policing and the criminal justice system As such this book is the ideal text for readers seeking to learn more about structural racial inequality in society how it came to be that way and what we should do about it while deepening our understanding and challenging many misguided or simplistic prevailing notions In a time of backlash to racial justice and growing doubts about racial equity initiatives this book is a timely and necessary entry A must read for advocates students policymakers and researchers alike Juvenile Delinquency William E. *Power and Inequality in Interpersonal Relations* Eric Beasley,2017-09-08 This book explores interpersonal situations in which weak or vulnerable people find themselves and the ways in which others help create sustain and eradicate such social dynamics Vladimir Shlapentokh and Eric Beasley demonstrate that people can gain power over each other and then abuse this power because of unequal resource conditions The authors define resources as the means necessary for satisfaction or achievement of needs or goals such as wealth physical strength intellectual capacity and information sexual attractiveness and status This volume is different from existing social science books on inequality and vulnerability which address relations between people of different social positions races genders ages and places of residence confronting each other in political economic and cultural battles This book focuses on people who become the victims of those whom they know personally relatives colleagues neighbors The authors argue that unequal resource distribution among members of social units is the main cause of conflict and ultimately creates situations where members of a social unit can abuse other members of the same unit

**Misperceptions of the Social World** Eric Beasley,2018-01-02 This volume elucidates some of the very concrete ways in which Americans misperceive the social world and how we are all subject to biases and illusions As such it challenges the assumption in much social science theorizing that people are rational actors by exploring how the machinations of cognition the effect of our past experiences the news and social media feeds all factor into our opinion making process The chapters highlight common and often incorrect perceptions of population diversity sexual behavior the economy health and relationships It shows how correcting these misperceptions of the social world can lead to real behavioral and attitudinal change
