Treaties and Other International Acts of the United States of America: Documents 122-150: 1846-1852. Document 151: 1799 United States, 1931 **Anglo-German Theatrical Exchange**, 2015-02-04 Through the great diversity of topics and methodologies the essays in this volume make a seminal contribution to an under researched field at the intersection of literary and cultural criticism comparative literature and theatre as well as translation studies The essays cover a wide range of texts from the eighteenth to the twenty first century From a broad variety of perspectives the exchange between drama and theatre of the Anglophone and the Germanophone worlds and their mutual influence are explored While there is a focus on the successful or unsuccessful bridging of the cultural gaps due consideration is given to the nexus between intercultural translation and *mise en scène* as well as the intricacies of intermedial reshaping Always placing the analyses within the political and socio historical contexts the essays make an innovative contribution to the aesthetics of Anglo German theatrical exchange as well as to European cultural history

International Exchange in the Early Modern Book World Matthew McLean, Sara K. Barker, 2016-07-11 International Exchange in the Early Modern Book World presents new research on several aspects of the movement and exchange of books between countries languages and confessions It considers elements of the international book trade the circulation and collection of texts the practice of translation and the diffusion and exchange of technical and cultural knowledge Commercial and logistical aspects of the early modern book trade are considered as are the relationships between local markets and the internationally minded firms which sought to meet their expectations The barriers to the movement of books across borders political linguistic confessional cultural are explored as are the means by which these barriers were surmounted

Early Modern Exchanges Helen Hackett, 2016-03-09 Marcus Gheeraerts's portrait of a Persian lady probably in fact an English lady in masquing costume exemplifies the hybridity of early modern English culture Her surrounding landscape and the embroidery on her gown are typically English but her head dress and slippers are decidedly exotic the inscriptions beside her are Latin and her creator was an incomer artist She is emblematic of the early modern culture of exchange both between England and its neighbours and between Europe and the wider world This volume presents fresh research into such early modern exchanges exploring how new identities subjectivities and artefacts were forged in dialogues and encounters between diverse cultures nations and language communities The early modern period was a time of creative interactions between cultures and disciplines and accordingly this is a multidisciplinary volume drawing together international experts in literature history modern and ancient languages and art history It understands cultural exchange as encompassing both the geographical mobilities of travel and trade and the transmission of ideas across borders and between languages as enabled by the new technology of print Sites of exchange were located not only in distant and unfamiliar lands but also in the bookseller's shop and the scholar's study The volume also explores the productive and complex dialogues between early

modern culture and the classical past The types of exchanges discussed include the linguistic transactions of translation and imitation interactions between cultural elites such as monarchs courtiers and diplomats and the catalytic influences of particularly mobile or outward looking individuals and groups Ranging from the neo Latin poetry of an English author to the plays of a nun in seventeenth century New Spain from royal portraits exchanged in diplomatic negotiations to travelling companions in the Ottoman Empire the volume sheds new light **English Mechanics and the World of Science** ,1887

Matters of Exchange Harold John Cook,2007-01-01 In this provocative book Richard Sennett looks at the ways today's global ever mutable form of capitalism is affecting our lives He analyzes how changes in work ethic in our attitudes toward merit and talent and in public and private institutions have all contributed to what he terms the spectre of uselessness and he concludes with suggestions to counter this disturbing new culture Top Secret Exchange David Zimmerman,1996-05-28

Zimmerman traces the early development of the mission from Britain's initial attempts at technical cooperation in World War I and unsuccessful efforts to restart it in the late 1930s He highlights Winston Churchill's prominent yet remarkably inconsistent role in the story and the often tumultuous diplomatic relations with the Roosevelt administration Among the secrets Britain revealed was the cavity magnetron which made microwave radar possible The Tizard Mission established an effective system of teamwork for Allied technical and scientific cooperation and it was this teamwork that proved to be a crucial factor in Allied technical superiority It was also the beginning of the much longer story of Anglo American scientific and technical cooperation The Tizard Mission served as a model for the international technical cooperation that continues today in organizations such as NATO The Institutes of Justinian.
