Secret Life Of Plants Documentary:

Household Horror Marc Olivier, 2020-02-11 A scholar examines 14 everyday objects featured in horror films and how they manifest their power and speak to society's fears. Take a tour of the house where a microwave killed a gremlin, a typewriter made Jack a dull boy, a sewing machine fashioned Carrie's prom dress, and houseplants might kill you while you sleep. In *Household Horror*, Marc Olivier highlights the wonder, fear, and terrifying dimension of objects in horror cinema. Inspired by object-oriented ontology and the nonhuman turn in philosophy, Olivier places objects in film on par with humans, arguing for example that a sleeper sofa is as much the star of *Sisters* as Margot Kidder, that *The Exorcist* is about a possessed bed, and that *Rosemary's Baby* is a conflict between herbal shakes and prenatal vitamins. *Household Horror* reinvigorates horror film criticism by investigating the unfathomable being of objects as seemingly benign as remote radiators, refrigerators, and dining tables. Olivier questions what Hitchcock's *Psycho* tells us about shower curtains. What can we learn from Freddie Krueger's greatest accomplice, the mattress? Room by room, Olivier considers the dark side of fourteen household objects to demonstrate how the objects in these films manifest their own power and connect with specific cultural fears and concerns. Provides a lively and highly original contribution to horror studies. As a work on cinema, it introduces the reader to films that may be less well known to casual fans and scholars; more conspicuously, it returns to horror staples gleefully reanimating works that one might otherwise assume had been critically done to death: *Psycho*, *The Exorcist*, *The Shining*. Allan Cameron, University of Auckland.

Botanical Imagination Jon L. Pitt, 2025-04-15 *Botanical Imagination* explores the complicated legacy and enduring lure of plant life in modern Japanese literature and media. Using critical plant studies, Jon L. Pitt examines an unlikely group of writers and filmmakers in modern Japan, finding in their works a desire to become botanical in both content and form. For nearly one hundred years, a botanical imagination grew in response to moments of crisis in Japan's modern history. Pitt shows how artists were inspired to seek out botanical knowledge in order to construct new forms of subjectivity and attempt to resist certain forms of state violence. As he follows plants through the tangled histories of imperialism and state control, Pitt also uncovers the ways plants were used in the same violence that drove artists to turn to the botanical as a model of resistance. In the first place, *Botanical Imagination* calls on us to rethink plants as significant but ambivalent actors and to turn to the botanical realm as a site of potentiality.

Botanical Speculations Giovanni Aloï,2018-10-16 Ground breaking scientific research and new philosophical perspectives currently challenge our anthropocentric cultural assumptions of the vegetal world As humanity begins to grapple with the urgency imposed by climate change reconsidering human plant relationships becomes essential to grant a sustainable future on this planet It is in this context that a multifaceted approach to plant life can reveal the importance of ecological interconnectedness and lead to a more nuanced consideration of the variety of living organisms and ecosystems with which we share the planet In Botanical Speculations researchers artists art historians and activists collaboratively map the uncharted territories of new forms of botanical knowledge This book emerges from a symposium held at the School of the Art Institute of Chicago in September 2017 and capitalizes on contemporary art s ability to productively unhinge scientific theories and certainties in order to help us reconsider unquestioned beliefs about this living world **Vegetal Sex** Stella Sandford,2022-11-03 This book introduces the reader to the exciting new field of plant philosophy and takes it in a new direction to ask what does it mean to say that plants are sexed Do male and female really mean the same when applied to humans trees fungi and algae Are the zoological categories of sex really adequate for understanding the uniquely dibiontic life cycle of plants Vegetal Sex addresses these questions through a detailed analysis of major moments in the history of plant

sex from Aristotle to the modern day Tracing the transformations in the analogy between animals and plants that characterize this history it shows how the analogy still functions in contemporary botany and asks what would a non zoocentric plant centred philosophy of vegetal sex be like By showing how philosophy and botany have been and still are inextricably entwined Vegetal Sex allows us to think vegetal being and perhaps to recognize the vegetal in us all **I Hear**
