Images and Strategies for Autonomy Ole Elgström, 2013-11-11 How do small states approach their security problems What types of strategic instruments exist for small states and when and why are certain strategies chosen rather than others The security of weak states is problematic demanding trade offs in the decisions made Using 19th century Swedish security policy as an example it is argued here that small states in their pursuit of security and autonomy face a dilemma between abandonment and entrapment leading to a choice between balancing between great powers or making an approach to one of them This hard choice confronts both non aligned and allied states It is also argued that a focus on the images of decision makers is required as a complement to traditional realist theory in order to gain an in depth understanding of small state security decisions This book is special in its focus on small non aligned states Most studies on balance of power behaviour limit their analysis to alignment decisions The study also expands the domain of image constructs by introducing perceived regime characteristics into the analysis besides images of power and intentions Audience Scholars and students interested in foreign policy analysis particularly small state behaviour The book points to the importance of beliefs and ideas in security policy *Iron Age and Hardware, Iron and Industrial Reporter* ,1894

Nation-Building in Central Europe Hagen Schulze, 1987-10-22 This book places German nationalism in its European context and considers how far it reflects interests and ideas common to people of different nationalities confessions and social backgrounds *Chambers's Encyclopaedia: Sound-Vitaceæ* ,1867 *Chambers's Encyclopaedia* Robert Chambers, 1879 **Chambers's Encyclopædia** Ephraim Chambers, 1870 **Chambers's Encyclopædia** ,1871
