Richmond's Priests and Prophets Douglas E. Thompson,2017-06-06 Explores the ways in which white Christian leaders in Richmond Virginia navigated the shifting legal and political battles around desegregation even as members of their congregations struggled with their own understanding of a segregated society Douglas E Thompson's Richmond's Priests and Prophets Race Religion and Social Change in the Civil Rights Era presents a compelling study of religious leaders impact on the political progression of Richmond Virginia during the time of desegregation Scrutinizing this city as an entry point into white Christians struggles with segregation during the 1950s Thompson analyzes the internal tensions between ministers the members of their churches and an evolving world In the mid twentieth century American South white Christians were challenged repeatedly by new ideas and social criteria Neighborhood demographics were shifting public schools were beginning to integrate and ministers influence was expanding Although many pastors supported the transition into desegregated society the social pressure to keep life divided along racial lines placed Richmond's ministers on a collision course with forces inside their own congregations Thompson reveals that to navigate the ideals of Christianity within a complex historical setting white religious leaders adopted priestly and prophetic roles Moreover the author argues that until now the historiography has not viewed white Christian churches with the nuance necessary to understand their diverse reactions to desegregation His approach reveals the ways in which desegregationists attempted to change their communities minds while also demonstrating why change came so slowly highlighting the deeply emotional and intellectual dilemma of many southerners whose worldview was fundamentally structured by race and class hierarchies
