Physics Jim Breithaupt, 1994 This teacher's guide accompanies a textbook written for the co-ordinated science syllabuses under the National Curriculum and for Science Physics. There are companion volumes on biology and chemistry. Topics are differentiated into core material for Double Single Science and extension material for Science Physics. These topics are linked to related ones in the companion volumes but the links are optional, allowing the physics book to stand alone. The teacher's guide includes a link to the Programme of Study for Sc4 and part of Sc3 and an analysis of the separate science syllabuses of all the main boards.
