

## 15.1 Earth's Atmosphere

### Key Concepts

-  Properties of the atmosphere include its composition, relative humidity, temperature, and air pressure.
-  The main layers of the atmosphere are the troposphere, stratosphere, mesosphere, and thermosphere.
-  Processes that affect weather in the troposphere include heat transfer and the interaction of air masses.

### SKILL BUILDER Vocabulary Preview

Define each vocabulary term in your own words. Then, write yourself a quick note on how you will remember each. One term has been done for you.

| Term              | Definition                                     | How I Remember                                                           |
|-------------------|------------------------------------------------|--------------------------------------------------------------------------|
| Atmosphere        |                                                |                                                                          |
| Relative humidity |                                                |                                                                          |
| Air pressure      | The force exerted by air on the area below it. | I think of how the air escapes out of the tire when my bike gets a flat. |
| Troposphere       |                                                |                                                                          |
| Stratosphere      |                                                |                                                                          |
| Ozone layer       |                                                |                                                                          |
| Mesosphere        |                                                |                                                                          |
