Secession Au Katanga Jules Gerard Libois:

The Self-determination of Minorities in International Politics Alexis Heraclides, 2012-11-12 Published in 1991 The Self determination of Minorities in International Politics is a valuable contribution to the field of Politics

Church, State and Colonialism in Southeastern Congo, 1890-1962 Reuben A. Loffman, 2019-05-23 This book examines the relationship between Catholic missionaries and the colonial administration in southeastern Belgian Congo It challenges the perception that the Church and the state worked seamlessly together Instead using the territory of Kongolo as a case study the book reconfigures their relationship as one of competitive co dependency Based on extensive archival research and oral histories the book argues that both institutions retained distinct agendas that while coinciding during certain periods clashed on many occasions The study begins by outlining the pre colonial history of southeastern Congo The second chapter examines how the Church began its encounters with the peoples in Kongolo and the Tanganyika province of the Democratic Republic of the Congo Subsequent chapters highlight how missionaries exerted significant influence over the colonial construction of chieftainship and the politics of Congolese decolonization The book ends in 1962 with the massacre of a number of Holy Ghost Fathers in an event that signaled the beginning of a more Africanized Church in Kongolo The author gratefully acknowledges support from the Economic and Social Research Council in the completion of this project

The Security Council Richard Hiscocks, 1974 The book deals extensively with the main international crises and problems since the second World War The Council's past record is spotted with success and failure It extends from the origins of the Cold War to Viet Nam from the Cuban missile crisis to the Suez from Northern Ireland to Bangladesh This is the explosive modern history of a broken world with ominous implications

Death in the Congo Emmanuel Gerard, Bruce Kuklick, 2015-02-10 More than 50 years later the murky circumstances and tragic symbolism of Patrice Lumumba's assassination trouble people around the world Emmanuel Gerard and Bruce Kuklick reveal a tangled web of international politics in which many people black and white well meaning or ruthless African European and American bear responsibility for this crime

Transnational Soldiers N. Arielli, B. Collins, 2012-11-28 Warfare in the modern era has often been described in terms of national armies fighting national wars This volume challenges the view by examining transnational aspects of military mobilization from the eighteenth century to the present Truly global in scope it offers an alternative way of reading the military history of the last 250 years

American Foreign Policy in the Congo 1960-1964 Stephen R. Weissman, 2019-06-30 This book offers a forthright and discerning evaluation of American foreign policy and its impact on the political system of an important Third World country After assessing the situation in the Congo when independence was achieved in 1960 Mr Weissman compares the policies of the Eisenhower Kennedy and Johnson administrations He throws new light on such questions as the role of the United States in the overthrow of Patrice Lumumba the UN action in Katanga and the repression of the 1964 rebellions Weighing various influences economic administrative congressional international on U S policy he concludes that the major factor was ideological American actions he maintains were based on certain mistaken assumptions that were held in common by key American decision makers whose backgrounds and training blinded them to the realities of Congolese life Based on extensive research including interviews with nearly all important figures who contributed to the making of American policy this book effectively challenges some fashionable interpretations of the causes and results of American intervention in the Third World

The Political Economy of Third World Intervention David N. Gibbs, 1991-11 Interventionism the manipulation of the internal politics of one country by another has long been a feature of international relations The practice shows no signs of abating despite the recent collapse of Communism and the decline of the Cold War In The Political Economy of Third World Intervention David Gibbs explores the factors that motivate intervention especially the influence of business interests He challenges conventional views of international relations eschewing both the popular realist view that the state is influenced by diverse national interests and the dependency approach that stresses conflicts between industrialized countries and the Third World Instead Gibbs proposes a new theoretical model of business conflict which stresses divisions between different business interests and shows how such divisions can influence foreign policy and interventionism Moreover he focuses on the

conflicts among the core countries highlighting friction among private interests within these countries Drawing on U S government documents including a wealth of newly declassified materials he applies his new model to a detailed case study of the Congo Crisis of the 1960s Gibbs demonstrates that the Crisis is more accurately characterized by competition among Western interests for access to the Congo s mineral wealth than by Cold War competition as has been previously argued Offering a fresh perspective for understanding the roots of any international conflict this remarkably accessible volume will be of special interest to students of international political economy comparative politics and business government relations This book is an extremely important contribution to the study of international relations theory Gibbs treatment of the Congo case is superb He effectively takes the statist to task and presents a compelling new way of analyzing external interventions in the Third World Michael G Schatzberg University of Wisconsin David Gibbs makes an original and important contribution to our understanding of the influence of business interests in the making of U S foreign policy His business conflict model provides a synthetic theoretical framework for the analysis of business government relations one which yields fresh insights overcomes inconsistencies in other approaches and opens new ground for important research Gibbs provides a sophisticated analysis of the conflicts within the U S business community and identifies the complex ways in which they interacted with agencies within the government to form U S foreign policy toward the Congo This is a well crafted analysis of a critical case of U S postwar intervention which should be of general interest to scholars and others concerned with the domestic bases of foreign policy Thomas J Biersteker Director School of International Relations University of Southern California

Congo 1964 Jules Gerard-Libois, Benoit Verhaegen, 2015-12-08 This is the sixth in an annual series of Congolese documents that have been compiled but this is the first time that they are available in French with an English introduction Originally published in 1966 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Congo Sean Rorison, 2008 A guide to visiting the Democratic Republic of Congo and the Republic of Congo that provides an overview of the countries geography climate history government culture politics and economy and offers information on accommodations transportation entertainment shopping nightlife attractions restaurants and sights

The Congo from Leopold to Kabila Georges Nzongola-Ntalaja, 2013-07-18 The people of the Congo have suffered from a particularly brutal colonial rule American interference after independence decades of robbery at the hands of the dictator Mobutu and periodic warfare which continues even now in the East of the country But as this insightful political history makes clear the Congolese people have not taken these multiple oppressions lying down and have fought over many years to establish democratic institutions at home and free themselves from foreign

exploitation indeed these are two aspects of a single project Professor Nzongola Ntalaja is one of his country's leading intellectuals and his panoramic understanding of the personalities and events as well as class ethnic and other factors make his book a lucid radical and utterly unromanticized account of his countrymen's struggle His people's defeat and the state's post colonial crisis are seen as resulting from a post independence collapse of the anti colonial alliance between the masses and the national leadership This book is essential reading for understanding what is happening in the Congo and the Great Lakes region under the rule of the late President Kabila and now his son It will also stand as a milestone in how to write the modern political history of Africa

Who Killed Hammarskjöld? Susan Williams, 2014 It has been 50 years since the UN Secretary General Dag Hammarskjöld mysteriously died in a plane crash in Africa Williams uncovers new evidence to demonstrate conclusively that the horrific conflict in the Congo was driven not so much by internal divisions as by the Cold War and the West's determination to control post colonial Africa

The Rise and Decline of the Zairian State Crawford Young, Thomas Edwin Turner, 1985 Zaire apparently strong and stable under President Mobutu in the early 1970s was bankrupt and discredited by the end of that decade beset by hyperinflation and mass corruption the populace forced into abject poverty Why and how in a new African state strategically located in Central Africa and rich in mineral resources did this happen How did the Zairian state become a parasitic predator upon its own people

Ethnic Groups in Conflict, Updated Edition With a New Preface Donald L. Horowitz, 2001-04-09 Drawing material from dozens of divided societies Donald L. Horowitz constructs his theory of ethnic conflict relating ethnic affiliations to kinship and intergroup relations to the fear of domination A groundbreaking work when it was published in 1985 the book remains an original and powerfully argued comparative analysis of one of the most important forces in the contemporary world

Katanga Secession Jules Gerard-Libois, 1966 *The Assassination of Lumumba* Ludo De Witte, 2022-10-25 The Assassination of Lumumba unravels the appalling mass of lies hypocrisy and betrayals that have surrounded accounts of the 1961 assassination of Patrice Lumumba the first prime minister of the Republic of Congo and a pioneer of African unity since its perpetration Making use of a huge array of official sources as well as personal testimony from many of those in the Congo at the time Ludo De Witte reveals a network of complicity ranging from the Belgian government to the CIA Patrice Lumumba's personal strength and his quest for African unity emerges in stark contrast with one of the murkiest episodes in twentieth century politics
