Conversation Analysis and Sociological Theory Melisa Stevanovic,David Inglis ,Anssi Peräkylä,Emmi Koskinen,2024-08-22

The relations between Conversation Analysis CA sociology and social theory are complex often ambiguous and have sometimes been rather fraught While there might be some relatively high level of agreement amongst their practitioners on what CA is what it does and what it is meant to achieve that is not so much the case for the more open and broad terrains of sociology and social theory Moreover each of the domains in question has changed in orientation composition and academic location since CA first came into existence in the late 1960s While initially a child of sociology as CA has matured and extended its substantive and methodological reach it has become a large intellectual domain in its own right with inputs from and relevance for a host of other disciplines notably linguistics anthropology and psychology It is now no longer at all clear how CA relates to sociology and social theory what each side currently does or what it could bring to the other in the future
