Skaarup, 2002-07-18 During the twentieth century civil and military aviation has played a prominent role in the history and development of California Commercial operators have exploited the advantages offered by aircraft to overcome its unique challenges of geography and climate By virtue of Californias comparative size and strategic importance on the West Coast of the continental USA a wide variety of military aircraft have been based there through the

years The list of military aircraft types that made up the tapestry of California aviation is as extensive as the list of legendary figures who have contributed to its amazing history While most of the military aircraft types no longer grace the airspace over California many can be viewed in their former splendor as they stand as gate guards or museum exhibits This booklet provides a comprehensive guide to where these restored aircraft can be found Complementing the details concerning aircraft specifications and roles the author has included many facts Finally the descriptions of the recovery restoration and preservation efforts stand as a tribute to the many volunteers who have devoted time energy and financial support to ensure this rich heritage is preserved **ICAO Circular** ,1948
