The National Skills Development Handbook 2010/11, 2010

Preparations for the London 2012 Olympic and Paralympic Games Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2012-03-09 The Olympic Delivery Authority s management of its building programme has been exemplary but due to significant increases in the cost of venue security the likelihood of staying within the overall 9.3 billion Public Sector Funding Package is very finely balanced The Funding Package does not cover the totality of the costs to the public purse of delivering the Games and their legacy which are already heading for around 11 billion Operational and financial risks have emerged in areas of the London Organising Committee of the Olympic and Paralympic Games responsibility and LOCOG itself now has almost no contingency left to meet further costs even though it has done well in its revenue generation The number of security guards required in and around the venues has more than doubled and renegotiation of the contract for venue security does not appear to have secured any price advantage With only 109 000 new people regularly participating in sport against an original target which the new Government chose not to adopt of 1 million by March 2013 the Department for Culture Media and Sport has got poor value for money for the 450 million spent through sporting National Governing Bodies It is unclear what the sporting participation legacy of the Games is intended to be Responsibility for delivery of all legacy matters is shared across many different parts of Government and this rings alarm bells about the effective integration of the various legacy plans and about clear accountability to the taxpayer

Toxic Matters Monica Seger,2022-06-10 In Toxic Matters

Monica Seger considers two Italian environmental disasters an isolated factory explosion in Seveso just north of Milan in 1976 and the ongoing daily toxic emissions from the Ilva steelworks in the Apulian city of Taranto Both have exposed

residents to high concentrations of the persistent organic pollutant known as dioxin Although different in terms of geography and temporality Seveso and Taranto are deeply united by this nearly imperceptible substance and by the representational complexities it poses They are also united by creative narrative expressions in literary cinematic and other forms that push back against dominant contexts and representations perpetuated by state and industrial actors Seger traces a dialogue between Seveso and Taranto exploring an interplay between bodies soil industrial emissions and the wealth of dynamic particulate matter that passes in between At the same time she emphasizes the crucial function of narrative expression for making sense of this modern day reality and for shifting existing power dynamics as exposed communities exercise their voices While Toxic Matters is grounded in Italian cases and texts it looks outward to the pressing questions of toxicity embodiment and storytelling faced by communities worldwide
