Preaching Tools Theological Matters:

Preaching Fred B. Craddock, 2010-05 The standard textbook on the art and craft of preaching with a new Foreword by Thomas G Long **Homiletical Theology** David Schnasa Jacobsen, 2015-02-13 Karl Barth famously argued that all theology is sermon preparation But what if all sermon preparation is actually theology This book pursues a thoroughgoing theological vision for the practice of preaching as a way of doing theology The idea is not just that homiletics is the realm of theological application That would leave preaching in the position of simply implementing a theology already arrived at Instead the vision in these pages is of a form of theology that begins with preaching itself its practice its theories and its contexts Homiletical theology is thus a unique way of doing theology even a constructive theological task in its own right Homiletician David Schnasa Jacobsen has assembled several of the leading lights of contemporary homiletics to help to see its task ever more deeply as theological yet in profoundly diverse ways Along the way readers will not only discover how homileticians do theology homiletically but will deepen the way in which they understand their own preaching as a theological task Contributors include Ronald J Allen Professor of Preaching and Gospels and Letters at Christian Theological Seminary John S McClure Charles G Finney Professor of Preaching and Worship at Vanderbilt Divinity School Alyce M McKenzie George W and Nell Ayers Le Van Professor of Preaching and Worship at Perkins School of Theology Southern Methodist University Michael Pasquarello III Granger E and Anna A Fisher Professor of Preaching at Asbury Theological Seminary Luke A Powery Dean of the Chapel and Associate Professor of the Practice of Homiletics at Duke University Teresa Stricklen Eisenlohr Ph D Associate for Worship Office of Theology and Worship at the Presbyterian Church U S A Preaching John F. MacArthur, Master's Seminary Faculty, 2005-08-21 Many sermons preached today lack the divine knowledge and spiritual understanding available only through dynamic expository preaching In *Preaching How to Preach Biblically* John MacArthur well known passion for the Bible combines with the expertise of faculty members at The Master's Seminary to inspire and equip preachers in effective biblical preaching *Preaching How to Preach Biblically* flows from biblical foundations for expository preaching through a detailed process of developing expositions and creating sermons to the actual delivery of expository messages connecting what pastors learn in seminary with the sermons preached in a local church This volume shows how to progress purposefully from one phase to the next in preparing to minister to God's people through preaching This book answers these questions and more What is expository biblical preaching What are the theological and historical foundations for insisting on expository preaching What are the steps involved in preparation for and participation in biblical preaching What models exist for expository preaching today The Master's Seminary faculty with over thirty years experience in preaching and seminary training of preachers contributes a treasury of expertise alongside insights from expositor John MacArthur While united on their commitment to exposition the variety of individual expressions and methodological preferences discussed offers beneficial assistance for any preacher seeking a higher level of expository excellence

Methods and the Medievalist Jesse Keskiäho, Marko Lamberg, 2020-11-09 The field of medieval studies has shifted towards a growing degree of inter and multidisciplinary during the recent decades The concept of medieval studies covers in fact a multitude of disciplines some of them being loyal to their long established traditions whereas others are very new and borrow methods from other branches of the humanities or even from modern natural or social sciences Since this means not only new possibilities but also new challenges sources and methodology should obviously concern anyone engaged in the history and culture of the Middle Ages Regardless of what aspects of the medieval world a scholar is dealing with his or her study has much to gain from a source pluralistic approach in order to be able to understand and even combine different types of sources a scholar must be aware of what methods are relevant and available and how they can be adapted and applied This collection of essays presents a comprehensive overview of current and fresh approaches to the history of medieval Europe The topics include among other things the complex relationship between the spoken and the written word explorations in social and geographic space layers and mental images perceivable in medieval texts source edition techniques relics as visual and tangible items not to mention the possibilities offered by prosopography zooarchaeology and the natural sciences Also the question and significance of ethics an ever more important issue in present day academic circles is discussed The contributors to this volume themselves form a very inter and multidisciplinary team although they can all be labeled as medievalists they in fact they work within different disciplines and in several different

What Really Matters Jonas Idestrom, Tone Stangeland Kaufman, 2018-06-11 This volume is about ecclesiology and ethnography and what really matters in such academic work How does material from field studies matter in a theological conversation How does theology in various forms matter in analysis and interpretation of field work material How does method matter The authors draw on their research experiences and engage in conversations concerning reflexivity normativity and representation in qualitative theological work The role and responsibility of the researcher is addressed from various perspectives in the first part of the book In the next section the authors discuss ways in which empirical studies are able to disrupt the implicit and explicit normativity of ecclesial traditions and also how theological traditions and perspectives can inform the interpretation of empirical data The final part of the book focuses on the process of creating the stuff that represents the ecclesial context under study What Really Matters is written to serve students and researchers in the field of ecclesiology and ethnography systematic and practical theology and especially those who work empirically or ethnographically broadly speaking The book might be particularly helpful to those who deal with questions of methodology in these academic disciplines This volume offers perspectives that grow out of the Scandinavian context yet it seeks to participate in and contribute to a scholarly conversation that goes beyond this particular location

Preach It! Carol Tomlin, 2019-02-28 Studies of preaching and preaching style have up to this point focused almost exclusively on a western eurocentric understanding of good preaching Preach It encourages students both vocational and scholarly to look beyond these approaches and to learn from traditions with which they are less familiar The distinctive style and techniques that African Caribbean Pentecostal preachers have inherited has been shaped by historical political and socio economic factors impacting on black Caribbean people including clergy Using a variety of socio linguistic and theological approaches Preach It reflects on these techniques and outlines how preachers across church traditions might learn from them and use them in their own contexts

The Fully Alive Preacher Mike Graves, 2006-01-01 Mike Graves begins this book with the question If preaching is intended to enliven the church why is it killing so many ministers His answer Because preaching has become divorced from the vitality and diversity of the preacher's daily life He invites preachers to discover how preaching can be renewing rather than draining
