**ePortfolios in Australian Universities** Jennifer Rowley, 2016-09-14 This book focuses on essential findings concerning emerging practices of student learning through the teaching and learning benefits of the electronic portfolio ePortfolio in a range of disciplines at Australian universities. It explores the latest research on ePortfolios, teaching quality, future research directions for tertiary learning and teaching, institutional agendas in higher education, and the role that the ePortfolios can play in supporting improvements in pedagogic practice and student outcomes. Included in these agendas is research into the development of higher education through the technologising of pedagogy, learner identities in discrete disciplines, and the praxis of individual university teachers. The book covers accounts of academic learning success and challenges across current higher education subject areas. By presenting case study accounts of ePortfolio use, it reveals the importance of defining and documenting how we can meaningfully develop learner portfolios in research, teaching and learning at Australian universities. With an intentional research base, the book draws on work conducted inside and outside Australia and highlights how the ePortfolio can help tertiary staff prepare for the impact of a student-created portfolio on teaching, learning and subsequent academic scholarship.

Implementing Communities of Practice in Higher Education Jacquie McDonald, Aileen Cater-Steel, 2016-11-23 In this edited collection, the authors pick up the communities of practice (CoP) approach of sharing practice in their reflection on the experience of taking their CoP vision from a dream to reality. Their stories articulate the vision, the passion and the challenge of working within and/or changing existing institutional culture and practice. The book discusses strategies that worked and considers the lessons learnt to inspire future dreamers and schemers. The multiple perspectives provided in the case studies will assist higher education leaders as well as academic and professional staff in establishing or assessing CoPs. The book offers insights into implementation strategies, practical guidelines and ideas on how CoP theoretical underpinnings can be tailored to the higher education context.

**The Mobile Learning Voyage - From Small Ripples to Massive Open Waters** Tom H. Brown, Herman J. van der Merwe, 2015-10-14 This book constitutes the proceedings of the 14th International Conference on Mobile and Contextual Learning (mLearn 2015) held in a cruise ship leaving from and arriving to Venice, Italy, in October 2015. The 22 revised full papers and 6 short papers presented were carefully reviewed and selected from 81 submissions. The papers deal with the topics related to the theme of the conference: The mobile learning voyage from small ripples to massive open waters. The conference theme paid tribute to the developments that brought mobile learning from its infancy steps in the early 2000s to maturity in 2015 while simultaneously paving the way for the broad and open waters ahead with new developments and progress in mobile learning and emerging ambient technologies.
