Agribusinesses are increasingly working with smallholder farmers in low and middle income countries to secure agricultural commodities. More productive smallholders boost rural incomes and economic growth as well as reduce poverty. Smallholders also represent a growing underserved market for farm inputs, information and financial services. *Working with Smallholders A Handbook for Firms Building Sustainable Supply Chains* third edition shows agribusinesses how to engage more effectively with smallholders and to develop sustainable, resilient and productive supply chains. The book compiles practical solutions and cutting edge ideas to overcome the challenges facing smallholders. This third edition is substantially revised from the second edition and incorporates new material on the potential for digital technologies and sustainable farming. This handbook is written principally to outline opportunities for the private sector. The content may also be useful to the staffs of governmental or nongovernmental development programs working with smallholders as well as to academic and research institutions.
