Life on Display Karen A. Rader, Victoria E. M. Cain, 2014-10-03 *Life on Display* traces the history of biological exhibits in American museums to demonstrate how science museums have shaped and been shaped by understandings of science and public education in twentieth century society Karen Rader and Victoria Cain document how public natural history and science museums ongoing efforts to create popular educational displays led these institutions to develop new identities ones that changed their positions in both twentieth century science and American culture They describe how pre 1945 biological exhibitions changed dramatically from rows upon rows of specimen collections to large scale dioramas with push button displays as museums attempted to negotiate the changing and often conflicting interests of scientists educators and the public The authors then reveal how from the 1950s through the 1980s museum staffs experimented with wildly different definitions of life science and life science education and how in the process natural history and science museums and science centers faced significant public and scientific scrutiny The book concludes with a discussion of the ways corporate sponsorship and contemporary blockbuster economics influenced the content and display of science and natural history museums in the century s last decades As a dynamic historical account of how museums negotiated their multiple roles in science and society *Life on Display* will attract a diverse audience of cultural historians sociologists and ethnographers of science as well as museum practitioners

The Southern Manifesto John Kyle Day, 2014-07-09 On March 13 1956 ninety nine members of the United States Congress promulgated the Declaration of Constitutional Principles popularly known as the Southern Manifesto Reprinted here the Southern Manifesto formally stated opposition to the landmark United State Supreme Court decision *Brown v Board of Education* and the emergent civil rights movement This statement allowed the white South to prevent *Brown* s immediate full scale implementation and for nearly two decades set the slothful timetable and glacial pace of public school desegregation The Southern Manifesto also provided the Southern Congressional Delegation with the means to stymie federal voting rights legislation so that the dismantling of Jim Crow could be managed largely on white southern terms In the wake of the *Brown* decision that declared public school segregation unconstitutional seminal events in the early stages of the civil rights movement like the Emmett Till lynching the Montgomery bus boycott and the Autherine Lucy riots at the University of Alabama brought the struggle for black freedom to national attention Orchestrated by United States Senator Richard Brevard Russell Jr of Georgia the Southern Congressional Delegation in general and the United States Senate s Southern Caucus in particular fought vigorously and successfully to counter the initial successes of civil rights workers and maintain Jim Crow The South s defense of white supremacy culminated with this most notorious statement of opposition to desegregation The Southern Manifesto Massive Resistance and the Fight to Preserve Segregation narrates this single worst episode of racial demagoguery in modern American political history and considers the statement s impact upon both the struggle for black freedom and the larger racial dynamics of postwar America

Greedy Science

Michael D. Gordin, W. Patrick McCray, 2025-02-18 The authors in this edited collection of essays explore this particular attribute greed by looking how it informed intersected and interlaced with science and technology and scientists and technologists during the 1980s During this decade greed although undeniably present in earlier eras became an extensive expansive and at times explicit characteristic of science both in the United States and around the world 3 The global scientific community was reshaped in a multitude of ways large and small by money fame and the pursuit of celebrity

Довго і щасливо Пол Долан, 2020-04-24 *Resources in Education*, 1984 **Facing the Rising Sun** Gerald Horne, 2018-01-16 The surprising alliance between Japan and pro Tokyo African Americans during World War II In November 1942 in East St Louis Illinois a group of African Americans engaged in military drills were eagerly awaiting a Japanese invasion of the U S an invasion that they planned to join Since the rise of Japan as a superpower less than a century earlier African Americans across class and ideological lines had saluted the Asian nation not least because they thought its very existence undermined the pervasive notion of white supremacy The list of supporters included Booker T Washington Marcus Garvey and particularly W E B Du Bois Facing the Rising Sun tells the story of the widespread pro Tokyo sentiment among African Americans during World War II arguing that the solidarity between the two groups was significantly corrosive to the U S war effort Gerald Horne demonstrates that Black Nationalists of various stripes were the vanguard of this trend including followers of Garvey and the precursor of the Nation of Islam Indeed many of them called themselves Asiatic not African Following World War II Japanese influenced Afro Asian solidarity did not die but rather foreshadowed Dr Martin Luther King s tie to Gandhi s India and Black Nationalists post 1970s fascination with Maoist China and Ho s Vietnam Based upon exhaustive research including the trial transcripts of the pro Tokyo African Americans who were tried during the war congressional archives and records of the Negro press this book also provides essential background for what many analysts consider the coming Asian Century An insightful glimpse into the Black Nationalists struggle for global leverage and new allies Facing the Rising Sun provides a complex holistic perspective on a painful period in African American history and a unique glimpse into the meaning of the enemy of my enemy is my friend Blood Relations Jenny Bangham, 2020-12-07 Blood is messy dangerous and charged with meaning By following it as it circulates through people and institutions Jenny Bangham explores the intimate connections between the early infrastructures of blood transfusion and the development of human genetics Focusing on mid twentieth century Britain Blood Relations connects histories of eugenics to the local politics of giving blood showing how the exchange of blood carved out networks that made human populations into objects of medical surveillance and scientific research Bangham reveals how biology was transformed by two world wars how scientists have worked to define racial categories and how the practices and rhetoric of public health made genetics into a human science Today genetics is a powerful authority on human health and identity and Blood Relations helps us understand how this authority was achieved **What They Wished For** Lawrence J. McAndrews, 2014-05-15 Roman Catholics constitute the

most populous religious denomination in the United States comprising one in four Americans With the election of John F Kennedy as president in 1960 they attained a political prominence to match their rapidly ascending socioeconomic and cultural profile From Vietnam to Iraq the civil rights movement to federal funding for faith based initiatives and from birth control to abortion Catholics have won at least as often as they have lost What They Wished For by Lawrence J McAndrews traces the role of American Catholics in presidential policies and politics from 1960 until 2004 Though divided by race class gender and party Catholics have influenced issues of war and peace social justice and life and death among modern presidents in a profound way starting with the election of President Kennedy and expanding their influence through the intervening years with subsequent presidents McAndrews shows that American Catholics led by their bishops and in some cases their pope have been remarkably successful in shaping the political dialogue and at helping to effect policy outcomes inside and outside of Washington Indeed although they opened this era by helping to elect one of their own Catholic voters have gained so much influence and have become so secure in their socioeconomic status and so confident in their political standing that they closed the era by rejecting one of their own voting for George W Bush over John Kerry in 2004 **The**

European Union in the 21st Century Nikolaos Zahariadis,2023-08-24 The European Union in the 21st Century takes a fresh look at a complex and ever changing organization by examining its pursuit of two very different objectives power security and political weight and plenty economic growth and social welfare Nikolaos Zahariadis aims to help students understand these two objectives and how the tension between them affects different issue areas illuminating how each objective represents a different perspective on what the EU is and what it does The book also introduces students to the systematic thinking that political scientists employ to see the connections between policies institutions and actors By unpacking the various perspectives students will gain greater insight into how policymakers think and why EU leaders make the kinds of decisions they do *Real World Psychology* Catherine A. Sanderson,Karen R. Huffman,2019-12-24 Real World Psychology balances comprehensive coverage of the key concepts in introductory psychology with a concise presentation style and engages students with current and interesting research that explores these concepts in real life contexts Real World Psychology features the incomparable author team of Karen Huffman Palomar College and Catherine Sanderson Amherst College who create an outstanding text that is appealing to students and instructors at a wide range of academic institutions The new edition has been thoroughly updated and features a new focus on Scientific Thinking and Practical Applications underscoring the fact that connecting the principles of psychological science to everyday life is critical to student engagement and ultimately key to their success not only in the introductory psychology course but in whatever their chosen field of study and in everyday life Students will leave the course with an appreciation of how a basic yet scientific understanding of human behavior can benefit them in their studies in their personal lives and in their professional endeavors

Days of Opportunity Robert B. Rakove,2023-08-08 Honorable Mention 2025 Charles H Norchi Prize Royal Asiatic Society

of Great Britain and Ireland Long before the 1979 Soviet invasion the United States was closely concerned with Afghanistan For much of the twentieth century American diplomats policy makers businesspeople and experts took part in the Afghan struggle to modernize delivered vital aid and involved themselves in Kabul s conflicts with its neighbors For their own part many Afghans embraced the potential benefits of political and commercial ties with the United States Yet these relationships ultimately helped make the country a Cold War battleground Robert B Rakove sheds new light on the little known and often surprising history of U S engagement in Afghanistan from the 1920s to the Soviet invasion tracing its evolution and exploring its lasting consequences Days of Opportunity chronicles the battle for influence in Kabul as Americans contended with vigorous communist bloc competition and the independent ambitions of successive Afghan governments Rakove examines the phases of peaceful Cold War competition including development assistance cultural diplomacy and disaster relief He demonstrates that Americans feared the loss of Afghanistan to Soviet influence and were never simply bystanders playing pivotal roles in the country s political life The ensuing collision of U S Soviet and Afghan ambitions transformed the country and ultimately led it and the world toward calamity Harnessing extensive research in U S and international archives Days of Opportunity unveils the remarkable and tragic history of American involvement in Afghanistan **Varmints and Victims**

Frank Van Nuys,2015-11-09 It used to be If you see a coyote shoot it Better yet a bear Best of all perhaps A wolf How we ve gotten from there to here where such predators are reintroduced protected and in some cases revered is the story Frank Van Nuys tells in Varmints and Victims a thorough and enlightening look at the evolution of predator management in the American West As controversies over predator control rage on Varmints and Victims puts the debate into historical context tracing the West s relationship with charismatic predators like grizzlies wolves and cougars from unquestioned eradication to ambivalent recovery efforts Van Nuys offers a nuanced and balanced perspective on an often emotional topic exploring the intricacies of how and why attitudes toward predators have changed over the years Focusing primarily on wolves coyotes mountain lions and grizzly bears he charts the logic and methods of management practiced by ranchers hunters and federal officials Broad in scope and rich in detail this work brings new much needed clarity to the complex interweaving of economics politics science and culture in the formulation of ideas about predator species and in policies directed at these creatures In the process we come to see how the story of predator control is in many ways the story of the American West itself from early attempts to connect the frontier region to mainstream American life and economics to present ideas about the nature and singularity of the region *The Dynamic Frame* Patrick Keating,2019-02-19 The camera s movement in a film may seem straightforward or merely technical Yet skillfully deployed pans tilts dollies cranes and zooms can express the emotions of a character convey attitude and irony or even challenge an ideological stance In *The Dynamic Frame* Patrick Keating offers an innovative history of the aesthetics of the camera that examines how camera movement shaped the classical Hollywood style In careful readings of dozens of films including Sunrise The Grapes of Wrath Rear Window Sunset

Boulevard and Touch of Evil Keating explores how major figures such as F W Murnau Orson Welles and Alfred Hitchcock used camera movement to enrich their stories and deepen their themes Balancing close analysis with a broader poetics of camera movement Keating uses archival research to chronicle the technological breakthroughs and the changing division of labor that allowed for new possibilities as well as the shifting political and cultural contexts that inspired filmmakers to use technology in new ways An original history of film techniques and aesthetics The Dynamic Frame shows that the classical Hollywood camera moves not to imitate the actions of an omniscient observer but rather to produce the interplay of concealment and revelation that is an essential part of the exchange between film and viewer **Building Evidence for**

Active Ageing Policies Asghar Zaidi, Sarah Harper, Kenneth Howse, Giovanni Lamura, Jolanta Perek-Białas, 2018-02-07 This book provides multinational evidence on active and healthy ageing It generates authoritative new knowledge for mutual learning and policymaking in addressing challenges linked with population ageing The authors discuss how to achieve better active ageing outcomes through appropriate policies including addressing life course determinants of active and healthy ageing The chapters are distinctive in their focus on quantitative analysis of active and healthy ageing based on a first of its kind composite measure the Active Ageing Index developed during the 2012 European Year for Active Ageing and Solidarity between Generations Contributors include researchers civil service representatives policymakers and other stakeholders from national regional and European organisations This edited volume provides a multidisciplinary resource for academics and policy makers in various areas of the social sciences especially those studying population ageing and its consequences economists sociologists social policy analysts and public health experts Supermarket USA Shane Hamilton, 2018-09-18

This cultural history examines the global rise of American style supermarkets during the Cold War era and how they shaped the way we eat today Supermarkets were invented in the United States and from the 1940s on they made their way around the world often explicitly to carry American style economic culture with them This innovative history tells us how supermarkets were used as anticommunist weapons during the Cold War and how their proliferation has shaped our current food system The widespread appeal of supermarkets contributed to a farm race between the United States and the Soviet Union as the superpowers vied to show that their contrasting approaches to food production and distribution were best suited to an abundant future In the aftermath of the Cold War US food power was transformed into a global system of market power laying the groundwork for the emergence of our contemporary world in which transnational supermarkets operate as powerful institutions in a global food economy *Social Work and the Grand Challenge to Eliminate Racism* Martell L.

Teasley, Michael S. Spencer, Melissa Bartholomew, 2023 In the current era the ongoing challenge of race and ethnic relations and growing white supremacy reminds us that the centrality of racism needs considerable attention and has us profoundly questioning the structure and functioning of institutional practices In *Social Work and the Grand Challenge of Ending Racism* the authors argue that racism has been somewhat short shifted as an avenue of inquiry to help explain social problems and

social welfare outcomes within the social work profession and within the greater society This book promotes innovative ways of preventing or interrupting racism and to stress the development and proliferation of antiracism practices as a method of reducing racialized outcomes in society *The Rocket Lab* Michael G. Smith,2023-05-15 The Rocket Lab Maurice Zucrow Purdue University and America's Race to Space focuses on the golden era of space exploration between 1946 and 1966 specifically the life and times of Purdue University's Dr Maurice J Zucrow a pioneering teacher and researcher in aerospace engineering Zucrow taught America's first university course in jet and rocket propulsion wrote the field's first textbook and established the country's first educational Rocket Lab He was part of a small circle of innovators who transformed Purdue into the country's largest engineering university which became a cradle of astronauts Taking a chronological and thematic approach The Rocket Lab weaves between the local and national drawing in rival universities especially Harvard MIT Princeton and Caltech Also covered is Zucrow's role in the national project system of research and development through World War II and the Cold War At Aerojet he was one of the country's original project engineers dedicated to scientific technical expertise and the stepwise approach He made vanguard power plant contributions to the Northrop Flying Wing as well as the Corporal Nike and Atlas missiles among others Zucrow's work in propulsion helped to improve the country's arsenal of ballistic missiles and space launchers and as a teacher he educated the first generation of aerospace engineers This book elevates Zucrow and the central role he played in getting the United States to space **Yearbook of International Organizations 2014-2015 (Volume 4)** Union Of International Associations,Union of International Associations,2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations Islamic Ecumene David S. Powers,Eric Tagliacozzo,2023-11-15 The essays in *Islamic Ecumene* address the ways in which Muslims from Morocco to Indonesia and from sub Saharan Africa to the steppes of Uzbekistan are members of a broad cultural unit Although the Muslim inhabitants of these lands speak dozens of languages represent numerous ethnic groups and practice diverse forms of Islam they are united by shared practices and worldviews shaped by religious identity To highlight these commonalities the co editors invited a team of scholars from a wide range of disciplines to examine Muslim societies in comparative and interconnected ways The result is a book that showcases ethics education architecture the arts

modernization political resistance marriage divorce and death rituals Using the insights and methods of historians anthropologists literary critics art historians political scientists and sociologists Islamic Ecumene seeks to understand Islamic identity as a dynamic phenomenon that is reflected in the multivalent practices of the more than one billion people across the planet who identify as Muslims

The Schenley Experiment Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh's first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace's reinvigorated school Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America's oldest public schools
