**TRANSIT Capacity and Quality of Service Manual**, 2003      **Transit Capacity and Quality of Service Manual**, 2013 TRB's Transit Cooperative Highway Research Program TCRP Report 165 Transit Capacity and Quality of Service Manual Third Edition provides guidance on transit capacity and quality of service issues and the factors influencing both. The manual contains background statistics and graphics on the various types of public transportation and it provides a framework for measuring transit availability, comfort and convenience from the passenger and transit provider points of view. In addition, the manual includes quantitative techniques for calculating the capacity and other operational characteristics of bus, rail, demand responsive and ferry transit services as well as transit stops, stations and terminals. The CD ROM that accompanies the manual provides PDF versions of all the publication's chapters for use on tablets and computers, links to all of the TCRP reports referenced in the manual, spreadsheets that help perform the calculations used in the bus, ferry and rail transit capacity methods and presentations that introduce the manual and its core material.      **New Transit Capacity and Quality of Service Manual** Alan R.
